The Tyranny Grows by Clayton R. Douglas

Welcome to the Twenty first Century.

Welcome to the Twenty first Century. What an incredible time to be alive and aware. Once again world war looms.

As before, these small, insignificant incursions by an increasingly war like America threatens to propel us into a wider conflict against forces in countries that were built and financed by the Banksters to be a viable enemy. Even in peacetime the wars here continue. The War on Drugs, the war on poverty and the war on terror only create more of what they are supposed to be fighting for.

This last Century has been the bloodiest and most deadly in history. Dictators rise with alarming regularity. Where to they get the money to pay for the weapons and troops? Where do the terrorists get their support and intelligence?

The 20th Century has seen 2 World Wars and conflicts from Korea, Kosov, Vietnam, Panama, Grenada, Iraq, Afghanistan, Libya, and now Syria. Look at a map. We are surrounding Iran.

The rest of the world knows we are the aggressor and the Chinese and Russians, still recovering from the oppression of Communism recognize us for what we have become... the vassal state of the Bankster created country of Israel on the ashes and dreams of the true Israelites who walked with Jesus.

Heavily documented by the Israelis themselves you will find the results of their

study in this first issue of the New Free American. As Jesus told you two thousand years ago, "Beware the Jews who say they are Jews but are not. They are of the Synagogue of Satan! There is no truth in them!"

By their own words, Jews have stated that they belong to no country. They are a race who view themselves as gods and Gentiles as Goyim or cattle. If a reporter or writer so much as dares to call them by their name for themselves, JEW, you are labeled an Anti-Semite.

This is the form the war against whites/Caucasian/True Israelites takes. The Jews own all the mainstream media and brag about it! They also own the giant corporations, Big Pharma, Weapons manufacturers and Corporate farms, like Monsanto, that are slowly killing us. And doctors only make money by keeping you sick.

The Jewish plan for world government has been in place in writing for hundreds of years. The Protocols they call a forgery is the exact plan being carried out today.

Project for the New American Century called for a new Pearl Harbor and the Jews (Sorry, Zionists for you brain dead people out there) The Jewish plan is to control the production of the oil in the region. The Saudi Royal family is Jewish! They have used us to kill mil-

lions of innocent people to install their banker friendly puppets in governments around the world. Now the American people are being targeted once more with the threat of war. The Banksters fund both sides and do not care how many goyim are slaughtered. Now they are making the final moves for Global Government and total control. Korea, Vietnam, Iraq and Afghanistan were just training exercises.

Now comes the staged confrontations with China and Russia over Syria and Iran.

They have a problem. You and me.

We are waking up! We are becoming aware around the world!

Join the fastest growing, most workable answer to everything that is wrong or could go wrong in the near future.. There is a Renaissance happening in neighborhoods like yours around the country as people work together in a cooperative manner to reduce prices, promote the products of your labor and intellect. This is about communication and cooperation. You may not think you have the power to change the world, but if you change your life, upgrade your home, become productive again within your home, you will inspire your neighbors, you will be confident of your ability to feed, support and protect your family and you will never feel alone or isolated again.

Why Liberty Villages? Because Anarchy and Martial Law are Just Around the Corner!

by Clayton R. Douglas

The Free American and Liberty Villages is about putting people together in a productive manner, helping them become more self-sufficient. Teaching the people who are becoming aware that they can be and are part of a world wide movement toward Liberty. Grow food, not grass. Generate your own power from what God Gave us. Keep your Liberty Teeth and stay healthy.

The seeds I planted with my films, radio and magazine took root. The life style I envisioned as the kind of place I would be able to retire in is springing up in isolated pockets everywhere. Natural Organic foods are dominating the market as GMO are being torched. Oklahoma Food Coop is putting Organic Independent Farmers together with buyers in the city. This should be done in every County. And you need to be aware and support these people because your Federal Government under Communist rule wants to close down access and production of food outside their Ninth Plank Corporate Farms.

Many towns and states are issuing their own local currency. Many counties have Sheriffs standing up for their citizens right to bear arms. This is my Liberty Village Concept! Use the Free American to share it with everyone. They use scorn and ridicule to to demonize and isolate. They did it to me. Called me a hater, a racist and anti-Semitic. This was psychological warfare after the physical and medical attacks failed. They had to break my spirit. They had the power to interrupt and extinguish my source of income and they did. But as one door closed another opened.

My show is on daily, on facebook, youtube, Wolfspiritradio, and <http://freeamerican.com>. I have been stymied for the last ten years. Trying to raise \$5000 for printing, maintain a truck, travel and paying UPS and USPS for the delivery of a ton of paper each month to get a copy in your hands at Barnes and Nobel. You paid \$5.00 there.

Under my New Paradigm you pay me \$2.99, print it on your own paper or read it on your I pad or Smart Phone, click on the links for my radio show and click on the links of products and people you need to know. your politicians are owned and controlled by the Zionist Media Magnates. In this case is appropriate to us the term Zionist because there are so many deluded Christians and self hating white people that have bought into the Scofield Bible propaganda.

Toss in a few million Muslims being taught that war is good and virgins are waiting and the stage is set. Christians vs Muslims. Televised by Disney! See the hundreds of children roasted in Gaza fire bombs. Hundreds of Syrians killed by a gas attack. Who Fired the Rounds? Doesn't matter. Gave us a good excuses to use a few of those old cruise missiles. Sell a few more truck loads of Valium.

So what does Obama's handler, Z. Brzezinski think? His call warning of the "global political awakening" has only intensified in recent years. Last year during a speech in Poland, Brzezinski noted that it has become "increasingly difficult to suppress" and control the "persistent and highly motivated populist resistance of politically awakened and historically resentful peoples." Brzezinski also blamed the accessibility of "radio, television and the Internet" for the "universal awakening of mass political consciousness."

"[The] major world powers, new and old, also face a novel reality: while the lethality of their military might is greater than ever, their capacity to impose control over the politically awakened masses of the world is at a historic low. To put it bluntly: in earlier times, it was easier to control one million people than to physically kill one million people; today, it is infinitely easier to kill one million people than to control one million people," said Brzezinski during a 2010 Council on Foreign Relations speech in Montreal.

The Free American is the leader in the Truth about the world we live in.

Their problem is that people are waking up all over the world and asking themselves why their government wants them to fight at all. Why can't we just work with all nations and all people? This is the new Consciousness that is beginning take root. In my mind the answers to all our problems is just by doing what our ancestors did as they settled this country. This is my Liberty Village Concept and it is simple communities, towns and counties working together with their law enforcement to keep our homes, towns, counties and state remain under the Constitution and free of NWO Police State Forces that are being assembled right now here in this country. White American Chris-

tians and Veterans are the target this year. We saw the dress rehearsal in Boston. Platoons of black suited troops barging into houses with no warrants. Searching for one teenager after they murdered his brother.

It will get worse now. Obamacare!

From Earl at Conservatorium on FaceBook , "Clearly, any family may be visited by federally paid agents for almost any reason." According to an Obamacare provision millions of Americans will be targeted. The Health and Human Services' website states that your family will be targeted if you fall under the "high-risk" categories below: *Families where mom is not yet 21. *Families where someone is a tobacco user. *Families where children have low student achievement, developmental delays, or disabilities. *Families with individuals who are serving or formerly served in the armed forces, including such families that have members of the armed forces who have had multiple deployments outside the United States. There is no reference to Medicaid being the determinant for a family to be "eligible." In 2011, the HHS announced \$224 million will be given to support evidence-based home visiting programs to 'help parents and children.' Individuals from the state will implement these 'strategies to' enhance program sustainability."

Commentary: — "I'm glad to know, since I am a American Veteran, that I'm bundled in with young and under ages mothers, smokers, and the mentally slow disabled youth. So how did I get this motley family; oh, the government assigned them to me under Obama Care? I was once 'targeted by the North Vietnamese' in North Vietnam, now I'm 'targeted' by the Health and Human Services in the 'good ol' U.S.A. So they're going to break down my door to talk to me about health care, like if I really wanted to know! Gee, I'm 'eligible' to somehow fall into this 'high risk category' since I fought to defend my country; therefor, I qualify and will be visited by federally paid agents, i.e., the FBI, the National Forest Service, NASA, HLS, the CIA, and TSA perhaps -- makes perfect sense to me! Talk about targeting people, why don't they investigate the Obama Family since Barack was a heavy two pack a day chain smoker, and why his Mother in law still lives in the white house, free! www.shop.freeamerican.com

Anarchy and Martial Law are Just Around the Corner!

by Clayton R. Douglas

When a state of anarchy exists, martial law is declared and we become subjects of a military dictatorship. Anarchy is what happens when a people become totally disenchanted with their government. Anarchy creates a temporary vacuum. After the despotic government is overthrown and new government rushes in the fill the void. Often times the replacement government is worse than the one being replaced..

Often times those that want a new government are the ones that sow the seeds of anarchy. President Obama is deliberately trying to sabotage our country in order to create one that is based upon principles collectivism and human bondage. Those planning the destruction of our country are the same ones that will step forward with their plan for a New World Order.

If the people continue down the path laid out for us, it is just a matter of time before, he declares martial law and our Constitution, the principles upon which our nation was founded will be meaningless.

One of the strategies of those that seek to enslave us is to employ the principle of divide and conquer. They realize that as long as we continue to fight among ourselves, the real enemies of the people will be able to implement their agenda without opposition.

Those that love liberty need to unite behind a plan to take America back. As stated by Henry David Thoreau, "We must stop hacking at the branches of evil and strike at the root." The government is not the problem, it is the bankers and financial elite that lurk in the shadows that is our real enemy. Congress did not have the Constitutional right to grant a privately owned bank the authority to print our money and regulate its value. Until we force Congress to repeal the Federal Reserve Act of 1913 we will continue being debt slaves in a land that once was free.

This morning I got up to begin writing the story of one man's struggle to protect and inform the American people. That would be me, Clay Douglas, aka the Free American. (wouldn't want to be accused of writing about myself in the third person by the Zionists you will learn about a little later.)

Most of you know the fact that I helped start and promote the Militias as the 21st Century rolled toward us and I watched,

with millions of other Americans as the Federal Government attacked and murdered over 100 Christians including 17 ((22?)) little children at Waco. I swore I would never stand by and watch something like that happen again without trying to do something about it. I started the Free American Magazine and this radio show in 1994 from the North half of the only two house town still on the map in New Mexico.

You may be aware of this because powerful, well funded Zionist organizations (ADL, SPLC and AIPAC) began their assault on me and my family immediately, listing this old Texas biker in publications like the ADL's "Armed and Dangerous" and SPLC's "False Patriots" and even manipulated the FBI into including me in a flier for police, listing Clay Douglas as a "Right Wing Extremist".

As all this began, I knew nothing more than any American about the Zionist/Jewish controls of money and mainstream media. I read the Local paper and watched the Today Show while running three businesses, stocking my freezer with dolphin from the middle of the Gulf Stream. (No! Not Flipper! Mahi Mahi to you landlubbers!) and enjoying happy hour at the local waterfront bar.

I watched Waco happen in horror and soon learned of what they did to the USS Liberty 25 years before Waco. (I posted the story on LBJ and the USS Liberty on the 46 anniversary of that attack by Israel) I added a quote from Hitler about Jesus and the attacks have been renewed in earnest!

I learned that Rothschild bought most of the News agencies by the turn of the century that pretty much controls your thinking and your perceptions of me and the Matrix like layer that composes your world. The Zionists/Elitists use, control and hide behind the Jews in the same manner that they do Christians and probably Muslims. The rewriting of the Bible by Scofield and even the term Judeo-Christianity should be a clue to their desire and plans for total control of us today.

(The term "Judeo-Christian" did not gain popularity, however, until after The Holocaust in Europe. Reacting against the anti-Semitism of Nazi Germany, European and American commentators sought to redefine Judaism as integral to the history of The West.[8] The term has since been used as part of American civil religion since the 1940s to refer to standards of religious ethics said to be held in common by Judaism and Christianity, for example the Ten Commandments or Great Commandment.)

<http://www.sott.net/article/263618-Earths-alpha-predator-Zionist-Mafia>

"The individual is handicapped by coming face-to-face with a conspiracy so monstrous he cannot believe it exists. The American mind simply has not come to a realization of the evil which has been introduced into our midst. It rejects even the assumption that human creatures could espouse a philosophy which must ultimately destroy all that is good and decent!" said J. Edgar Hoover - The Elks Magazine (August 1956)

This is the power of well educated Free American. I am so well read I have a little immunity from propaganda and programming. And never let anyone tell you that just one man can't make a difference! Most people do not have the time or the desire to know the truth about everything. This is why they do not want me to succeed in reaching and educating the masses. The thinking people are out there. The articles included and linked here just showed up on my computer this morning. Maybe the work I started 20 years ago is taking root now. This was the power of the Free American magazine, (now online) and my radio show. Stay tuned and make a donation.

The Elite HATE to see me prosper because I DO call it Treason! They toss out terms to demonize, Racist, Haters, Anti-Semites, Anti-government and now expanded that to include Patriots. The slaves are awakening and rebelling. The Banksters are scared. I do not want to overthrow the government, I want to restore our Constitutional Republic and our Independence. I believe it is possible. After I identify those controllers of your information and ergo your thinking, I am going to show you a way that, as individuals, you can oppose and defeat these predators of humanity on a multitude of levels.

Email me at clay@freeamerican.com and tell me of your talents and abilities and I will tell you about the plan for true Liberty in your home, town, county and country.

The Jews attack me but hear the words of an honest Jew unafraid to tell the truth!

JESUS WAS NOT A Jew

Benjamin H. Freedman,

Jewish Historian - Researcher - Scholar.

From "Common Sense", p. 2-1-53

"Christians have been duped by the unholyest hoax in all history, by so-called Jews. This is considered their most effective weapon."

"This 'big lie' technique is brainwash-

ing United States Christians into believing that Jesus Christ was "King of the Jews", in the sense that so-called 'Jews' today call themselves 'Jews'. This reference was first made in English translations of the Old and New Testaments, centuries before the so-called Jews hijacked the word 'Jew' in the 18th century A.D. to palm themselves off on the Christian world as having a kinship with Jesus Christ. This alleged kinship comes from the myth of their common ancestry with the so-called 'Jews' of the Holy Land in the Old Testament history, a fiction based on fable."

"American Christians little suspect they are being brainwashed twenty-four hours of every day over television and radio, by newspapers and magazines, by motion pictures and plays, by books, by political leaders in office and seeking office, by religious leaders in their pulpits and outside their churches, by leaders in the field of education inside and outside their curricular activities, and by all leaders in business, professions and finance, whose economic security demands that they curry the favor of so-called "Jews" of historic Khazar ancestry. Unsuspecting Christians are subjected to this barrage from sources they have little reason to suspect. Incontestable facts supply the unchallengeable proof of the historic accuracy that so-called "Jews" throughout the world today of eastern European origin are unquestionably the historic descendants of the Khazars, a pagan Turk-Finn ancient Mongoloid nation deep in the heart of Asia, according to history, who battled their way in bloody wars about the 1st century B.C. into eastern Europe where they set up their Khazar kingdom. For some mysterious reason the history of the Khazar kingdom is conspicuous by its absence from history courses in the schools and colleges.

"The historic existence of the Khazar kingdom of so-called "Jews", their rise and fall, the permanent disappearance of the Khazar kingdom as a nation from the map of Europe, and how King Bulan and the Khazar nation in about 740 A.D. became so-called "Jews" by conversion, were concealed from American Christians by censorship imposed by so-called "Jews", of historic Khazar ancestry, upon all U.S.A. media of mass communications directed by them. Then in 1945 this author gave nationwide publicity to his many years intensive research into the "facts of life" concerning Khazars. The disclosures were sensational and very effective but apparently angered so-called "Jews" who have continued to

vent their spleen upon this author since then solely for that reason. Since 1946 they have conducted a vicious smear campaign against him, seeking thus to further conceal these facts, for obvious reasons. What have they to fear from the truth?

"In an original 1903 edition of the Jewish Encyclopedia in New York's Public Library, and in the Library of Congress, Volume IV, pages 1 to 5 inclusive, appears a most comprehensive history of the Khazars. Also in the New York Public Library are 327 books by the world's greatest historians and other sources of reference, in addition to the Jewish Encyclopedia, dealing with Khazar history, and written between the 3rd A.D. and 20th centuries by contemporaries of the Khazars and by modern historians on that subject."

Jesus was a 'Judean', not a Jew.

During His lifetime, no persons were described as "Jews" anywhere. That fact is supported by theology, history and science. When Jesus was in Judea, it was not the "homeland" of the ancestors of those who today style themselves "Jews". Their ancestors never set a foot in Judea. They existed at that time in Asia, their "homeland", and were known as Khazars. In none of the manuscripts of the original Old or New Testament was Jesus described or referred to as a "Jew". The term originated in the late eighteenth century as an abbreviation of the term Judean and refers to a resident of Judea without regard to race or religion, just as the term "Texan" signifies a person living in Texas.

In spite of the powerful propaganda effort of the so-called "Jews", they have been unable to prove in recorded history that there is one record, prior to that period, of a race religion or nationality, referred to as "Jew". The religious sect in Judea, in the time of Jesus, to which self-styled "Jews" today refer to as "Jews", were known as "Pharisees". "Judaism" today and "Pharisaism" in the time of Jesus are the same.

Jesus abhorred and denounced "Pharisaism"; hence the words, "Woe unto you Scribes and Pharisees, Hypocrites, Ye Serpents, Ye Generation of Vipers".

I found this thought from a devout Christian years before World War II regarding the use of the figure of Jesus on the cross. First of all the Bible tells us not to worship idols. Why would a church adopt the instrument of torture use to kill our savior to worship him? I did not write the following words but I agree with them. The same Money Changers Jesus ran out of

God's Temple are still with us today. They just changed the name of the Temples. They call them the Bank of England and the Federal Reserve. CRD

"My feelings as a Christian draw me to my Lord and Saviour as a fighter. I'm being drawn to the man, who, standing alone, with only a few followers, recognized these Jews for what they were and summoned men to fight against them, and who - God's truth! - was the greatest not as a sufferer, but as a fighter. In boundless love as a Christian and as a man, I read through the passage which tells us how the Lord, at last, rose in His might and took up the scourge to drive out of the Temple this brood of vipers and adders. How terrific was His fight for the world against this poison! Today, after two thousand years, with deepest emotion, I recognize more profoundly than ever the fact that it was for this that He had to shed His blood upon the Cross. As a Christian, I have no duty to allow myself to be cheated, but I have the duty to be a fighter for truth and justice." I have tried to do this and tell you what was happening to this country. When I exposed this information in March of 2004 they tried to kill me for that!

(THIS IS WHY OUR PRESS DEMONIZED ADOLF HITLER TO WHOM THE ABOVE QUOTE WAS ATTRIBUTED! I REMOVED HIS NAME AFTER THE OWNER OF SPECIAL GUESTS, Jerry McGlothlin, REFUSED TO SEND ME ANY MORE GUESTS) THE ARTICLE FOLLOWING SOON ENTITLED "WHY LIBERTY VILLAGES?" WILL EXPLAIN THE DEMONIZATION LEVELED AT MYSELF, CLAY DOUGLAS, BY THE AGENTS OF THE BANKSTERS AND HOW WE CAN FIGHT THEM!

But What does Jesus say about them? Andrew Jackson referred to them in the same language and threatened to "Route Them Out".

Matt: 23-33 Jesus addressing the jew Sanhedrin: "You snakes! You brood of vipers! How will you escape being condemned to Hell? Therefore I am sending you prophets and wise men and teachers. Some of them you will kill and crucify, others you will flog in your synagogues and pursue from town to town. And so upon you will come all the righteous blood that has been shed on earth from the blood of righteous Abel to the blood of Zechariah."

The Problems and Reactions

Earth's alpha predator:
Zionist Mafia -- Sott.net

The Global Zionist Government. Egypt is rebelling against these Monsters, Why aren't we?

ALL WARS ARE BANKERS WARS.

As a reporter, writer, editor and publisher for almost 50 years, I have faithfully tried to bring you the best of the history, thoughts and deductions of highly intelligent men, writers and historians without the bias and control of those that consider themselves our masters. I have brought you these Elitists' own words to show you how they feel about us. This is not just about America or Americans now. This New World Order plan is spelled out in the one document your masters are afraid for you to read because it makes it evident that someone is using that plan and the need for total control over the masses.

Who wrote it makes little difference. It is who is using that plan today that is important. It appears that it is our government is putting the 200 year old plan of the Illuminati into action. Understand that the Illuminati was established at the same time as this country. 1776. Their agents have been among us since then and are among us now. They may call themselves Republicans, Democrats, Conservatives or Liberals, they will be one of those arguing the most vehemently for "Change". If the "Change" includes hampering your Freedom and Liberty in any respect, the ones espousing their rhetoric are your enemy! This includes those who want to limit your right to bear arms or trying to inflame blacks against whites to influence the verdict or decision in a trial.

Divide and Conquer are the keywords for the Elitist in the art of War and the modern form of Economic Slavery in which we are currently immersed.

Recent studies by psychologists and social scientists in the US and UK suggest that contrary to mainstream media stereotypes, those labeled "conspiracy theorists" appear to be saner than those who accept the official versions of contested events.

The most recent study was published on July 8th by psychologists Michael J. Wood and Karen M. Douglas of the University of Kent (UK). Entitled "What about Building 7? A social psychological study of online discussion of 9/11 conspiracy theories," the study compared "conspiracist" (pro-conspiracy theory) and "conventionalist" (anti-conspiracy) comments at news websites.

The authors were surprised to discover that it is now more conventional to leave so-called conspiracist comments than con-

ventionalist ones: "Of the 2174 comments collected, 1459 were coded as conspiracist and 715 as conventionalist." In other words, among people who comment on news articles, those who disbelieve government accounts of such events as 9/11 and the JFK assassination outnumber believers by more than two to one. That means it is the pro-conspiracy commenters who are expressing what is now the conventional wisdom, while the anti-conspiracy commenters are becoming a small, beleaguered minority.

Perhaps because their supposedly mainstream views no longer represent the majority, the anti-conspiracy commenters often displayed anger and hostility: "The research... showed that people who favoured the official account of 9/11 were generally more hostile when trying to persuade their rivals."

In short, we are swiftly becoming the majority! After reporting on and being demonized by our Hidden Hand Masters, whoever THEY are, truth and common sense are making headway among the people.

Now one of my comments has been how do we fight evil without becoming evil. A lady with a keen understanding of our universe told me, "Don't fight them!"

I have considered that for days now and come to the conclusion that she is right.

I had a clear vision many years ago and I wrote it down as novels that I never published or submitted. I wrote them in a Texas prison. I labeled them science fiction. I put them and the typewriter I w brought them out in boxes and lugged them around with me through 49 states for about the same number of years. I started companies around the characters I had created. I had all kinds of reasons not to do anything with them. They were too far out. I needed to do more research. The public was not ready for an imaginary world that ran so far against the grain of conventional wisdom and science. And finally, with all of the businesses I started, including magazines, I stayed really busy. A wife, two boys, chemical companies, distribution companies, boats, boat based businesses and magazines. I just never had the time to retype my novels and short stories into my computers.

Bear in mind, that I read every science fiction book in the Fort Worth Public Library before I was 14. Robert A Heinlein

was my favorite and those first two novels could show his influence..

John D. Mac Donald's Travis McGee series occupied a lot of my time in the 80s.

I had moved to Florida when MacDonald died, drinking in all the same bars as Hemingway and soaking up the burgeoning drug culture, especially considering I had uncovered the CIA and Mossad involvement in George W. Bush's drug importation scheme, "Operation Watchtower." It made me a target when I exposed it in my magazines and I was threatened by the CIA and harassed by the DEA for being in the Paraphernalia Industry. I helped start NORML and was the first distributor of High Times in Texas.

I foresaw what was going to happen to "Head Shops" and got out of the business right before they busted Tommy Chong for starting a pipe business. I helped Jack Herer by setting up a shop for him in Van Nuys while he was writing "Emperor Wears No Clothes" I sold his book for years in the Free American.

The novels I wrote while I lived in Miami were loosely based on the McGee novels. All of MacDonald's McGee novels were based on a color. "The Deep Blue Goodbye: was his first. "The Green Ripper, Lonely Silver Rain and others followed. MacDonald was supposedly working on a "Black" novel in which Travis McGee died. He used that threat in negotiations with his publisher.

My novels started out with my character, originally called Trevor McGee Hamilton being born to Molly Bee, a woman Travis slept with in the "Deep Blue Goodbye." My first book, with a future segment written a few years after I thought I had completed it, was "One Bloody Alabaster Eye". The future segment sets the stage for the next few books. I called the second "Deadly Flashes of Silver". The third novel will be titled "White Gold". I figured I would use Minerals instead of colors.

Some people in Miami accused me of writing myself into my Trevor Cameron character. My answer was pat, "Nope! My character is younger, stronger, faster, got more money and killed more people that I have."

I took my 28 foot 1966 Hatteras sport fisherman, the "SeaDueced" to a MacDonald conference to meet John D's son Maynard held at the Bahi Mar resort where one slip is graced with a plaque that proclaimed it as the fictional location of McGee's boat, the "Busted Flush". I docked my boat

there.

One of the events required us to come as one of the characters MacDonald had created for the series. I came as me. When Maynard MacDonald, flown in from his home in New Zealand saw me, he asked who I had come as. I smiled and told him I came as Trevor McGee.

"Who is Trevor McGee?" he asked.

"The son Travis never knew about," I blithely said. It took less than a week before MacDonald's lawyers were sending me letters demanding I destroy my manuscripts even before the publication of the two I had completed in the series.

I sent the lawyers copies of my manuscripts. Once they read them, they wrote me back told me, "You write just like John D! We are sending copies of these to Maynard" Maynard returned the package unopened.

I never heard from them again. All of my writing is original except for some historical notations. You cannot copyright write the name McGee. Or maybe my threat of suing them for child support might have had an effect. Just for safety's sake I changed the name of my character to Trevor Cameron Hamilton and that of his father to Shannon Cameron. My character does speculate that John D. might have met his father Shannon and based the character of Travis on my character's father Shannon. The books were printed and are for sale. If any fan of MacDonald read my books they would see the connection instantly. Both of those books are for sale now at www.shop.freeamerican.com

You can get pretty much my whole story in my latest book, almost an autobiography combined with a college level history book, "Mystery Babylon, the New World Order Unveiled."

I was lured out of Florida with an offer to good to refuse. One of the stories I had covered in my Rider's Xchange magazine was about the reemergence of Indian Motorcycles. Wayne Baughman offered me the position of PR Director of Indian Motorcycle Manufacturing Inc. Wayne had shown his idea of a new Indian in Sturges with a wooden motorcycle. He took quite a bit of teasing about his "Wooden Indian" but when he called me, shortly after I had riled up the Bush Gang, he had gotten Cyril Batten to manufacture Indian Motors for him. Cyril was noted for building the Cadillac Northstar motors. The day of their debut, I talked with Cyril and asked how many motors he was building for us.

"Two!" was the answer. "Those two inside Tingley Coliseum" The next day I was asked why I was talking to Batten by Baughman. "I am in charge of PR. I talk to everyone."

There was no time to ask Wayne why Batten was not producing enough motors for the orders he already had. He fired me on the spot.

In retrospect, with all of the events such as the "Accident" and attacks by the CIA, ADL, SPLC and DHS, I am forced to consider that these moves were carefully planned and staged and I was almost totally unaware of the anger this old Texas Biker had stirred up.. It has been an ongoing battle. I was sued or threatened with lawsuits by more than one company from that day on. The story of "Operation Watchtower" that broke in my Rider's Xchange Motorcycle Magazine is now a chapter in my book Mystery Babylon, the New World Order Unveiled". It was here, in Albuquerque, that I started the Free American Magazine and my Radio show with the money I got winning the harassment suits filed against me to prevent me from publishing stories such as the one I did for Easyriders and Motorcycle Industry that put Baughman out of business. My stories on Rey Sotello's South Country Motorcycles and a phone call to the lawyers handling the Indian bankruptcies got Rey Sotello the Indian Franchise which he did well with until he was shuffled into obscurity by investors. Then THAT Indian Enterprises went down into the dust of Motorcycle History also.

I told you all of that to tell you this.

I am a good researcher, a student of history and I understand politics having been on the staff of a Presidential candidate in 1996.. For 25 years I have been a good reporter doing exactly what reporters are supposed to do. Like the Canary in the Coal Mine I always refer to myself as, the story of the attacks on me were kept quiet and not publicized like Hastings, Assange and Manning. At least some of them may still be alive.

I have reported on their moves and goals.

They are much closer today to their goal of one world government and one world banking. Voting is not the answer. You can only vote for the people you know about. Most have never heard of the first Republican to sign up for the Presidential race in the Republican Party because Charles Collins was not allowed to be filmed on TV when he tried to tell you we needed to buy back the Federal Reserve as Kennedy wanted to do. In two states his mike was unplugged! Ron Paul and Gary Johnson fared little better last year.

We tried forming the Militia and that cost many lives in OKC. The only people that are pushing for armed conflict are so-called "Patriots: Like the Jewish Afghan Vet Adam Kokesh who wanted to lead naive patriots into an perfect ambush on a bridge into Washington D.C..

Studying history has convinced me that we have had the abilities and the knowledge for the last hundred years, perhaps even thousands of years, to make this world and this country a much better place. The Banks and the corporations that sprang up around them have limited and controlled us and milked us for the last century. They have withheld vital technology. They have built the Military Industrial Complex and profited off of wars and the deaths of millions of innocent foreigners who never did us any harm. They created a medical system that profits from and creates more disease and misery than a sane person can imagine. They created a Criminal Justice System that is criminal itself and they have put more of their own citizens in prisons or on parole or probation than any "Communist Country" in the world, including Red China.

Although we, in the Patriot Movement have been warning of the coming danger, those warnings were met with scorn. Conspiracy Theories, Anti-Government, Right Wing Extremists, druggies and Pot Smokers. I tried to tell you that the drug laws were simply a way to create convenient criminals and that if a man could walk up to you and arrest you for a piece of a plant you had in your pocket, you lived in a po-

lice state!

The books I wrote 45 years ago examined that in the form of science fiction. Victimless crimes were abolished in 46 states in my Solomon Series and formerly illegal drugs were sold in shops, street corners and flea markets.. I started the Lucifer Legends about the Atlantis legends and described "Earth Ships" plying our heavens 5000 years ago. Looking back, I was ahead of Eric Von Daniken and his Chariots of the Gods which evolved into the Ancient Aliens Theories float around Youtube today.

Those two books will be released later this year.

I have watched the years roll by and saw more of my brothers that did go to Vietnam kill themselves than were killed by Vietnam Cong. Now I am watching the same "Racket" envelope men who could have been my sons. More children have been killed at OKC, Columbine and Sandy Hook than have were killed in Waco.

I told you all our phones were tapped and that they used that to try to kill me in 2004. Someone with a lot of money closed down businesses that were already sold to publicly traded companies. The same thing has been done to men who developed advanced carburetor systems. Stays in Mental Hospitals, Threats! Torture even some murdered. Seems that it is against the law to have a car in American that gets better than 50 miles to the gallon. Gas prices up? Must be an election around the corner.

And speaking of elections, last year you wonderful, gullible, Patriotic Americans gave over 1 billion dollars to those with in our two party system to elect a President. Most of that money, outside the limos and expensive hotel rooms, went to the six or seven media companies that provide the news and your daily dose of programming. You do that over and over again and it doesn't matter who you elect or which party you support, nothing "Changes" except out debt gets bigger, the controls get stronger and the penalties for disobedience or dissent harsher. The prisons compete

with private, American owned businesses. More people are in prison than any so-called Communist Country in the world. How much good does it do to write your Congressman?

The old saying, "You can't fight City Hall" was invented by Corrupt Politicians. We can and have won time and again throughout history. Join the fastest growing, most workable answer to everything that is wrong or could go wrong in the near future.. There is a Renaissance happening in neighborhoods like yours around the country as people work together in a cooperative manner to reduce prices, promote the products of your labor and intellect. This is about communication and cooperation. You may not think you have the power to change the world, but if you change your life, upgrade your home, become productive again within your home, you will inspire your neighbors, you will be confident of your ability to feed, support and protect your family and you will never feel alone or isolated again.

The ideas I have spoken of, the people I have interviewed, have had a powerful effect. There are videos up on my <http://libertyvillages.org> page and my www.facebook.com/freemercan69 that illustrate individuals regaining self sufficiency and independence in their homes and becoming self sufficient, growing healthy food in their back yards. Many others have built smaller houses, installed wind or solar, and communities and towns have issued their own money. But these are isolated pockets of resistance.

I volunteered for Vietnam in 1964. I took a test after applying for Officer Candidates School. I was turned down because my IQ was to high for me to be an officer. They said I would question orders. A few days later I came down with Spinal Meningitis. My Sgt. made sure I was the last one on the bus. My family got a letter telling them I was not expected to live. www.shop.freemercan.com I helped stop that illegal war, Nothing has changed here. Our youngest, strongest and brightest are being targeted, demonized, slandered and betrayed and killed. The fault isn't with a foreign country. It comes from YOU, the American people who bought into their propaganda and elect and fund traitors like John McCain, George Bush, Barack Obama, Nancy Pelosi.

We don't have to relocate to Liberty Villages. Our ancestors built them for us. We just have to learn how to use what God gave us! That was GOD NOT GOVERNMENT! Don't seem that hard. Grow your own food. print your own money based on what YOU can contribute, Use the power that God gave us to power our lives. (I have a solar powered watch!, food growing in the backyard, practicing what I preach)

As soon as I came out with my plan for Liberty Villages. I was attacked by the ADL and the I government started raiding back yard gardens and small, organic farmers.

Arlington, Texas government thugs raid and trash farmstead

Are you breaking the law by growing food in your own backyard?

Don't laugh, you might be!

Joel Salatin, in Everything I Want To Do Is Illegal: War Stories from the Local Food Front, details, through his own experience on his own family farm established in 1961, "that at every step...government officials have unceasingly tried to criminalize us, demonize us, dismiss us, and laugh at us. And the struggle is not over. Some battles, as you will see, we did not win. Some we refuse to fight. The war goes on."

Today, those farmers who are trying to heal their land, their neighbors and their food are marked for destruction. Using actual, factual stories as a springboard to the broader philosophical issues surrounding food choice and entrepreneurship, the author comes across as a modern-day food evangelist—but not a fanatic. You may not agree with all of his conclusions, but this book will force you to think about things that most people didn't even know existed. But communities are starting to band together to resist!

Revolution In Local Food Laws

Sedgwick, Maine has done what no other town in the United States has done. The town unanimously passed an ordinance giving its citizens the right "to produce, process, sell, purchase, and consume local foods of their choosing."

This is WITHOUT government regulation.

This includes raw milk, locally slaughtered meats, and just about anything else you can imagine. It means that farmer and patron agree to enter into private agreements with one another, and settle any disputes that arise personally and civilly.

It is the way things used to be done before Americans sacrificed their freedoms to the US Food and Drug Administration (FDA) and other federal agencies that now tell the public what they can and cannot eat.

Food sovereignty ordinances are what must be in place to enable an explosion of local food production.

During the Great Depression there were thousands of local, organic currency systems created because the national money was in short supply. That has occurred again today as there are record foreclosures, and bankruptcies in the US, and internationally. While Wall St may be getting bailed out, Main St. is struggling with a shortage of currency. If currency does not flow, then the local economy is sluggish, and stops. It is happening here and now. This is intended to be a part of the barter and trade of the Liberty Villages Coop.

The New Mile High Hours Denominations

They are here, fresh off the press, colorful, positive, full of good energy, and ready to be spent. The Mile High Hours denominations are structured the same as Mountain Hours, so the values are the same and thus interchangeable with the Hours in other communities.

1/10	Hr	=	\$1
1/2	Hr	=	\$5
1	Hr	=	\$10
2	Hrs	=	\$20

There's nothing more local than local money.

How can businesses get involved?

When you agree to accept Hour Currency in your business, we issue you 20 Hours (\$200) every 3 months that you can immediately start spending into the community. The amount to be issued occasionally changes to balance with the amount of currency in circulation with relation to the goods and services offered. Typically, 5

Hours are issued for local businesses which agree to accept Hours in return. Each local independent business that signs up will get 20 Hours for each 3 months that they remain a member. The more local businesses that accept Hours, the more valuable the money becomes. Additionally, currency must flow. The more places it flows the stronger our economic circuit becomes. Other ways to acquire Hours:

Ask for Hours as change when shopping at stores that accept them

Exchange your federal dollars for Hours from a trader who has an excess supply

Accept them in payment for your labor or goods.

Ask your employer to consider accepting Hours by agreeing to accept Hours as a percentage of your regular pay.

They are here, fresh off the press, colorful, positive, full of good energy, and ready to be spent. The Mile High Hours denominations are structured the same as Mountain Hours, so the values are the same and thus interchangeable with the Hours in other communities. 1/10 Hr = \$1
1/2 Hr = \$5
1 Hr = \$10
2 Hrs = \$20

There's nothing more local than local money. What are the benefits of the "organic" Hour money?

1. Main St. needs more money. Many people don't have enough to pay their bills.
2. Hour money listens as it is issued by the people for their benefit.
3. Hour money stays in our community and does not take wealth away from us.
4. Hour money is debt and interest free, so it is sustainable and not subject to compounding debt which causes scarcity, foreclosure, and bankruptcy.
5. Hour money fails at the multi-national Big Box stores by design. By using our

money we practice stewardship of our community, our independence, and our neighbors. Colorado is one of the most beautiful places on the planet with unique history, character, and charm. Hour money is a staunch line of defense to keep it that way.

THINK ABOUT THIS !!!

Who died before they could draw their Social Security? KEEP PASSING THIS AROUND UNTIL EVERY ONE HAS HAD THE OPPORTUNITY TO READ IT... THIS IS SURE SOMETHING TO THINK ABOUT!!!! THE ONLY THING WRONG WITH THE GOVERNMENT'S CALCULATION OF AVAILABLE SOCIAL SECURITY IS THEY FORGOT TO FIGURE IN THE PEOPLE WHO DIED BEFORE THEY EVER COLLECTED A SOCIAL SECURITY CHECK!!! WHERE DID THAT MONEY GO?

Remember, not only did you and I contribute to Social Security, but your employer did, too. It totals 15% of your income before taxes. If you averaged only \$30K over your working life, that's close to \$220,500. Read that again! Did you see where the Government paid in one single penny?

We are talking about the money you and your employer put in a Government bank to insure you and I that we would have a retirement check from the money we put in, not the Government. Now they are calling the money we put in an ENTITLEMENT when we reach the age to take it back.

If you calculate the future invested

value of \$4,500 per year (yours & your employer's contribution) at a simple 5% interest (less than what the Government pays on the money that it borrows), after 49 years of working you'd have \$892,919.98. If you took out only 3% per year, you'd receive \$26,787.60 per year and it would last better than 30 years (until you're 95 if you retire at age 65) and that's with no interest paid on that final amount on deposit! If you bought an annuity and it paid 4% per year, you'd have a lifetime income of \$2,976.40 per month. If you have a deceased spouse who died in their 50's -- their S.S. money will never have one cent drawn from what they paid into S.S. all their lives over the past 30 years!

THEFOLKSINWASHINGTONHAVE
PULLEDOFFABIGGERPONZISCHEME
THAN BERNIE MADOFF EVER DID.

Entitlement my foot, I paid cash for my social security insurance! Just because they borrowed the money for other government spending, doesn't make my benefits some kind of charity or handout!!

Remember Congressional benefits? --- free healthcare, outrageous retirement packages, 67 paid holidays, three weeks paid vacation, unlimited paid sick days. Now that's welfare!!! And they have the nerve to call my social security retirement payments entitlements?!?

We're "broke" and we can't help our own Seniors, Veterans, Orphans, or Homeless. Yet in the last few months we have provided aid to Haiti, Chile and Turkey. And now Pakistan.....home of bin Laden. Literally, BILLIONS... if not TRILLIONS of DOLLARS are unaccounted for!!!

They call Social Security and Medicare an entitlement even though most of us have been paying for it all our working lives, and now, when it's time for us to collect, the government is running out of money. Why did the government borrow from it in the first place? It was supposed to be in a locked box, not part of the general fund. Sad isn't it. 99% of people won't have the guts to forward this. I'm in the 1% -- I just did.

It is time to stop being Israel's Bitch!

I renounced my US citizenship and the United States of Hypocrisy refused to acknowledge my right, our right, to self-determination. Alright then, I am thinking now that maybe I just needed to leave for 10 years or so and reflect on things, now that I have, I have made some important conclusions.

First among them is that it remains an embarrassment, that idiot flag waving Americans have sat by while their Constitution was used like toilet paper and their government became a bought and paid for circus of clowns.

Second is that due to this despicable state of affairs of failing to pay attention on our watch we Americans have continued to be complicit in mass murder that is truly unparalleled in the modern age. God help us for what we are collectively responsible for.

Third, our American sons and daughters continue to be used as the meaningless pawns they are and ultimately, aside from those our sons and daughters murder in foreign lands, aside from those we rape and torture, our sons and daughters themselves are the biggest victims of all. We so pathetically spouted "support our troops", like idiots, incredible idiots, while effectively sentencing them to a fate that makes post-traumatic stress disorder almost inevitable. Look at the drug abuse, domestic violence, homelessness and suicide rates of returning soldiers and compare it to the returning soldiers of Vietnam, what the fuck are we doing to our supposedly cherished sons and daughters?

I have come to another conclusion, America is almost assuredly going down and going down hard, so hard that it might just bring the whole world down with it, for this reason more than any other I feel a

need to exercise the best virtues I obtained as an American born son and do my best to sound the alarm. To reach out to every genuine, not fake ass idiot patriot, but to reach out to the genuine patriots.

And lastly, we need to acknowledge 100% that the American government is bought and paid for by the Zionist, Jewish supremacists, Israeli "dual citizens", which in truth is a pyramid with the Rothschild's and their bankster kin at the top. These are the puppet masters and they have used America as their strong arm, if we are so blindly stupid as to continue this role as their enforcers, we will exterminate not only ourselves but possibly this beautiful world we live in.

Hiroshima and Nagasaki are proof of just how horrendous we have been and thus are capable of being today.

It is time to stop being chumps, it is time to actually give some meaning to the word patriot. It is especially time for those in the police, military and government who took an oath to uphold the Constitution to honor that commitment. Are you a person of honor? Or are you a fraudster? A coward?

I couldn't care less about fake patriots, but real patriots, I am serious about working with you. Get the fuck up and take the fake ideals of America and make them real. If that were to happen I will happily ask for my citizenship back... until such time I do not give my allegiance to this criminal entity and thus I am not a citizen regardless of the judgments of this corrupt government and its minions.

When America truly becomes a nation of honor I will be proud to stand among its citizens as a genuine member of the family. Let us make this so.

LIBERTY VILLAGES

Liberty Villages Concept

A Decade of Deceit!

Time to fight back!

By Clayton R. Douglas

In 1994, I bought 5 acres on the north half of a tiny two house town 30 miles from the nearest small town. Bingham was still on the map and I bought the old post office and general store in 1994. The ranches that surrounded it filled up half a page in the Socorro, NM phone book. Carrizozo was 30 miles to the East, Socorro 30 miles west.

I started my Free American Magazine, my radio show and the Militias in New Mexico. That certainly brought a lot of heat on me after two Jewish Organizations, the Anti-Defamation League (ADL) and Southern Poverty Law Center (SPLC) publicized my involvement in and promotion of the Militia nationwide when my little local newspaper went national in full color. Their attacks and cries of Racism and Antisemitism were unfounded and untrue.

I did start the militia in New Mexico but I did it in Governor Gary Johnson's office. The Chief of the New Mexico State Police was a subscriber for ten years. Ever elected official in the Santa Fe Roundhouse got a copy of my magazine each month.

SPLC and the ADL never quit. When my name and the Free American appeared in an SPLC inspired FBI document sent to all police departments, I called both the governor and the Chief the next day and told them I thought someone was trying to arrange my death by cop. The document was recalled by the governor the next day. Attacks on my advertisers, supporters and guests continued. Some people who appeared on my shows or wanted to help were killed or imprisoned on false or inflated charges. Roger Christie was arrested shortly after appearing on my show to talk about his THC Ministries in Hawaii. That was 3 years ago. He has not gone to trial and is being held without bond by the Feds.

I spent ten years in what I considered

an ideal location. Fate had put me ten miles from the Trinity Site. My neighbor said he slept through the first Atomic Blast across the street on White Sands Missile Range. My children learned to drive themselves to school. They played football and had a good childhood, growing up in a small town where everyone knew them and they were always safe.

We had a coke box out front, a library of books, film, Miracle 2 Soap and a little beef jerky. The garden was producing lettuce, corn and other produce. My sons went to militia training on the NRA Range outside Raton, NM and out shot all the adult militia men. Because of the magazine We had a little traffic from readers and the guys that worked on White Sands. I wanted to build that traffic. At various times we had folks drop in with their campers and RVs. Some stayed and helped around the place then caught the wind.

I decided a restaurant and a motel or RV Park would be an attraction and a money maker. Rumors were spreading that the Trinity Site was about to be turned into a national park. There was plenty of traffic on US Hwy 380.

On a trip to Ruidoso, the ski resort 40 miles to the west, I found old fashioned looking cabins made by Cavco at some resorts. Just Outside Red River and Santa Fe, I found Yurts and Teepees. I decided to concentrate on a configuration of teepees surrounding a yurt. I figured anyone driving down the highway and seeing a bunch of brightly lit Teepees with a sign that said Vacancy, Organic Food and Hemp Coffee would get a steady stream of customers.

March 2004 Free American Cover

Around the first of 2004 we moved to Phoenix to publish Arizona's Thunder Riders Magazine. My friend and employee Vincent took care of the house in New Mexico, answering our phones and shipping all of our orders.

I put the Liberty Village Concept into the centerfold of my last Free American Magazine, March 2004, the tenth anniversary of the birth of the Free American. On the air I had referred to 9-11 as an exaggerated case of Jewish Lightning!

In April New York Times broke the story of Bush allowing the NSA to tap all our phones. Verizon Rewarded for Records Release With \$10 Billion Government Contract. May 20, 2004 they tapped mine and arranged an accident that put me into a hospital for 4 months, 3 of them in a drug induced coma. I woke up to find that I had lost almost everything and the attacks continued after I got out of the hospital. The notes and columns I wrote after getting out and learning of the three quarters of a million dollar hospital bill, were written when the attacks were continuing and became one chapter of my latest book.

Excerpt from Mystery Babylon here.

The pressure from Communist propagandists continues until the present day. The loss of my businesses, my property and my family weighed heavily on my mind while I tried to continue and re grow what I had lost. Fortunately I became eligible for Social Security and had a small income. I attempted restore the Free American and intended to use that to develop my property in New Mexico. Unfortunately, I was alone and damaged goods. No one I had supported in the patriot movement came forward to help.

A woman showed up offering to help. The story is long and involved and not very pretty. The short and sweet version is I thought I had a partner. We refinanced in her name. I sold the property in Bingham to get the money to restart the Free American and Liberty Villages. The day we closed she kicked me off the property.

My property went from five acres and a home to a 37 foot fifth wheel.

To this day there are factors involved that make it damn near impossible to analysis what happened and who was responsible for the string of bad luck I weathered. The term love was tossed around. The wife I was with for 24 years left me and went to work with her father. She still tells me I am the love of her life. Guess she is just waiting for her father to die. He told her he would disown her if she came back to me after the accident.

Self doubt crept in. Was I just a bad man, a poor husband and father, a danger to our republic for reporting on the creep of Communism or was I being a purposefully attacked and demonized by the same people that attacked and demonized Sen. Joe McCarthy? Were the people that attacked or abandoned me foreign agents or well meaning people just dumbed down by our public fool system? The war on drugs was a psychological warfare on the American people. The "hippies" were attacked and demonized for using marijuana but we started a peace movement that got us out of an illegal and immoral war. Just the beginning of the wars we have been in ever since. Because of the effort of us "Hippies" more than 20 states have mad Cannabis legal to use. That's a few million American who won't be made into criminals!

For years I have tried to analyze what was happening to us and prepare or counter what I believe to be coming.. It has happened many times in history. What if the Communists who invaded Russia and murdered 60 million white Christian Russians had taken over many aspects and departments inside our government? Why were these murderers in the Soviet Union given atomic weapon and our citizens victimized by a media produced "Cold War"? Who won that War? The bankers who financed and profited from all wars! ALL WARS ARE BANKERS WARS.

Liberty Village began as a concept for building a sustainable, self-supporting communities in rural areas of this country. It was a good plan, with a specified number of structures to be raised a specified number of miles from the nearest town. These were good ideas that could have worked in a different economy or with more time to make it all happen.

Well, the world changed in the blink of an eye. Now, money for investing in experimental communities, building structures, buying land has all dried up. Our

country is reeling from bank failures, home foreclosures, staggering unemployment and governmental ineptitude. The house of cards collapsed, folks, there is no going back. My companies and my property was lost along with a million other Americans who lost their homes.

In the subsequent contemplation Liberty Villages exist. There may not be a physical location in a rural area, there may not be a group of people living on some land off the grid, but Liberty Village is still here, in a different form.

Liberty Village is not a place, not a collection of buildings located on a piece of land somewhere. Liberty Village exists everywhere and nowhere, it is a concept, a new paradigm, a way of surviving the global-level social and economic changes we are currently experiencing.

Liberty Village is an online community with information, ideas, research and encouragement. We are reinventing our society right now, and Liberty Village will be with you, bringing ideas, plans and ways to connect with others as we create a new society on top of the ashes of the old one.

If you own a house you can barely afford to keep and you open that home up to share it with someone who can help you with the mortgage and bills, you are part of Liberty Village. If you are contemplating replacing your lawn with a vegetable garden, you are part of Liberty Village. If you are installing a rain collection system, a solar panel or anything else that will help you conserve resources, you are living in Liberty Village. If you are a small rancher or farmer struggling to maintain your way of life and you allow others to live on your land in return for their help, you have created Liberty Village.

Liberty Village means being willing to let go of what no longer works and find new and creative ways to work with what you already have. Liberty Village means being willing to share your resources and allow others to share with you. Liberty Village is understanding we are all connected and that we all need each other to survive the current shift.

We learned a very important lesson, starting with Hurricane Katrina and continuing to the present, where we are witnessing the train wreck of our economy. While our government is scrambling around in a panic trying to figure out what to do to save bankers and large corporations from their own bad management and greedy business practices, the message being sent out loud

and clear is that we the people are on our own.

So – What do we do? Do we sit in the wreckage crying over the "stuff" we have lost or do we get busy and figure out how to live with what we already have. "Stuff" will not save us, the government will not save us and the big corporations will not save us.

We have to save ourselves and each other. We have to create things that work, like barter systems, home sharing, land sharing and back yard farming.

We all have gifts, skills and resources to share or trade. Let's get busy.

"You will comply or we will destroy you"
Using a bogus claim of "marijuana growing", thugs from the Arlington, Texas police department under the direction of the mayor's office raided and trashed a small farmstead destroying food crops including 20 producing blackberry bushes and a field of sunflowers and carted away essential farm equipment. Did they find any evidence of marihuana growing? No they did not. But they did find "code violations" and while conducting the search and destroy raid, police kept eight adults in handcuffs, one reportedly for several hours.

**What's Ailing America?
AMERICA IS A GULAG
INDISTINGUISHABLE FROM
BOLSHEVIK RUSSIA**

Rebecca Carley, MD

www.reversingvaccineinduceddiseases.com

The definition of "gulag" is "a network of forced labor camps in the former Soviet Union, especially for political dissidents". The word archipelago compares the system of labor camps spread across the Soviet Union with a vast "chain of islands", known only to those who were fated to visit them. The answer to the question "What's Ailing America?" on my 8/25/13 radio show was HISTORY REPEATS ITSELF; COMPARING WHAT THE JEWS ARE DOING TODAY IN AMERICA TO WHAT HAPPENED IN THE USSR AS PER THE BOOK "GULAG ARCHIPELAGO" by Aleksander Solzhenitsyn. My guest was historical researcher Bill Maur. The link to a you tube of the show is <http://www.youtube.com/watch?v=uO4HAd4rEsE&feature=youtu.be>.

The book "Gulag Archipelago" traces the history of the system of forced labor camps that existed in the Soviet Union from 1918 to 1956. On this show we covered 3 main categories of indistinguishable characteristics of the gulag in Russia to the reality of where we now find ourselves in America today. These 3 categories include policies of the ruling "elite", the security apparatus which controlled the people, as well as the impact on families. In fact, it is self evident that we are in an even worse position today due to the technology enabling unprecedented surveillance and covert killing using big pharma drugs, especially bioweapon vaccines. Not to mention an executive order by traitor in chief Obama allowing drone strikes on AMERICANS who his cartel deem need to be killed; no trial, just a death sentence mandated by this monster who actually received the Nobel Peace prize!

The mind control of the majority of Americans could not be more self evident. However, the not talked about provisions of Obamacare which will kick in as of January 2014 will bring the destruction of the family to a whole new level, allowing home invasion of CPS agents and kidnapping of children into state custody for almost any reason. The "forced home inspections" which are part of the Obamacare atrocity can be reviewed at [http://freedomoutpost.com/2013/08/obamacare-](http://freedomoutpost.com/2013/08/obamacare-provision-forced-home-inspections)

[provision-forced-home-inspections](http://freedomoutpost.com/2013/08/obamacare-provision-forced-home-inspections). There you will learn that "clearly, any family may be visited by federally paid agents for almost any reason. The Health and Human Services website states that your family will be targeted if you fall under the "high risk" categories below:

Families where mom is not yet 21

Families where someone is a tobacco user

Families where children have low student achievement, developmental delays, or disabilities [in most cases because they were inoculated with bioweapon vaccines]

Families with individuals who are serving or formerly served in the armed forces, including such families that have members of the armed forces who have had multiple deployments outside the US [I bet they are not telling young people who show up at military recruiting offices about that little factoid!]

A homeschooling family may be subject to "intervention" in "school readiness" and "social-emotional developmental indicators" A farm family may be subject to "intervention" in order to "prevent child injuries" Firearms will also be included as a potential safety hazard requiring home inspection THE FEDERAL GOVERNMENT WILL NOW SET THE STANDARDS FOR RAISING CHILDREN AND WILL ENFORCE THEM BY HOME VISITS"

An even more extensive discussion of this "Mother of All Conspiracies Aimed at Our Children" can be found at <http://www.activistpost.com/2013/08/the-mother-of-all-conspiracies-aimed-at.html>. "According to a previously unreported Obamacare regulation that has managed to escape "scrutiny" from the mainstream media, millions of American families will be targeted for home invasion by the forces of the Federal government in the name of preventing parental neglect resulting in disabilities in their children. And the Fourth Amendment be damned, after January 1, 2014, Federal officials may enter your home without a warrant in order to "intervene" for the purpose of saving "high risk" children...the home invasion will be conducted by CPS on behalf of HHS". Dave Hodges continues with the following VERY important information:

Meet the Creators of the State Sponsored Child Kidnapping Rings

The primary author for this insane manual for HHS/CPS and their designed

home invasion interventions is Diane DePanfilis, Ph.D., M.S.W. She is the Associate Dean for Research and an Associate Professor of Social Work at the University of Maryland.

More importantly she is a co-editor of the Handbook on Child Protection Practice. In other words, DePanfilis has been a major player in the unconstitutional practices we see in CPS in all 50 states. As if this is not concerning enough, all of the other contributing authors have their professional origins and affiliations with the same organization.

- Lindsay Ritter Taylor from Caliber, an ICF International Company
- Matthew Shuman, M.S.W, A consultant with Caliber, an ICF International Company
- Jean Strohl, A consultant with Caliber, an ICF International Company,
- Jeannie Newman, M.S.W, M.I.B.S., A consultant with Caliber, an ICF International Company

It was at this point, I smelled a rat. We have the primary author being a CPS author designed to teach their field operatives on the methods of how to abuse parents and undermine parental authority. And all of the contributing authors come from the exact same corporation, ICF. At this point, it is prudent to ask the question, who is ICF?

ICF Is the Biggest Player That You Have Never Heard Of

ICF International partners with government and commercial clients to deliver consulting services and technology solutions in climate change, energy, environment, transportation, social programs, defense, and homeland security markets. In my mind, this established ICF as a major player in the introduction and implementation of the globalist agenda by designing matching Federal programs. And as it turned out they are a major player in Obamacare through their subsidiary acquisition, Caliber Associates. Caliber is an "established leader in providing research, consulting, and innovation in human services and human resource issues." ICF acquired Caliber in 2005 in order "to serve HHS, the U.S. Department of Justice, the U.S. Department of Defense, and the U.S. Department of Education." Caliber Associates and their four contributing authors to the HHS/CPS field manual, which will be used to enforce child welfare regulations, was the undeniable link to Obamacare through this field manual. But as I discovered, the

rabbit hole went even deeper.

After I found the co-authors of the HHS/CPS policy manual which will guide these forced home inspections, I smelled the distinct odor of the United Nations and Agenda 21 and sure enough, this was exactly what I found.

The United Nations and Obamacare

At times, I feel that I have the globalist playbook and I am able to often anticipate their next move. Please allow me to briefly illustrate how the globalists have operated in another area, education, and then draw the parallel to how the UN is deeply involved in Obamacare.

The Common Core Curriculum, which is sweeping the nation's education system, was the product of "Education for All." Education for All comes from the United Nations education arm, the United Nations Educational Scientific and Cultural Organization (UNESCO). Common Core went from UNESCO to the National Governors Association who in turn farmed out the development of the details to various NGO's, which in turn sent the standards to each state for implementation.

This is the standard model that the globalists follow when implementing a controversial program and Obamacare follows a similar pattern as did Common Core.

There is no doubt that the provisions of allegedly protecting children in Obamacare, originated with the United Nations. In the United Nations document entitled, Human Rights, Persons with Disabilities, ICF and the UN Convention on the Rights of Persons with Disabilities (Training toolkit), implementation for programs designed to help people, children in particular, with disabilities, came from the World Health Organization (WHO) [Page 36], UNESCO [Page 37], the International Labour Organization (ILO) [Page 36] and the United Nations Children's Fund (UNICEF)[Page 38]. As one

can see from the title, ICF and the UN have partnered to "protect" people/children with disabilities."

And what will be done with these allegedly "at risk" children abducted from their families? This is where the rabbit hole gets so dark that those with a conscience will not even be able to conceive of such evil. As I have documented many times before in these newsletters, children abducted by the state are put into international child tracking/pedophile rings, used for child pornography, experimentation of psychiatric

drugs, and worse. And since government agents will be committing these crimes against your children, who will you turn to for "justice"?

I realize that the things I report in this newsletter and on my shows are very disturbing, and the majority of citizens prefer to put their heads in the sand and pretend all is well. In so doing, you are consenting with your silence and inaction. Do not complain when the wolves come knocking at your door. I have been dancing with these wolves since the late '90's, when I described the cause of all disease and developed a protocol to reverse all disease with natural therapies. The deafening silence of those who know the facts of my situation tells me that no one will care when the wolves come into your life. If you are not aware of what I have experienced, listen to a radio show about it posted on YouTube at http://youtu.be/ZbmDHTk_oLM. YOU HAVE BEEN WARNED, because you and your children are next... Zionists design myth of Jewish genome to usurp Palestine

by Jim W. Dean, VT Editor with Press TV-
First published on Press TV Feb. 27th,

Update: This article did very well on Press TV. We jumped on it at VT because we saw it's Mid East shattering implications regarding the Zionist myth biblical claims to Palestine. My readers know what I have always felt about a bunch of communist atheist Jews claiming a God given right to anything. But this new genome study was written from a purely scientific approach. The study was covered internationally everywhere by in the U.S., surprise, surprise. All geopolitical implications below are mine and not Dr. Elhaik's. The militant Zionists have already politicized it by sending arch Zionist Dore Gold out to do a hit piece on this new work. Dore has handed me his head on a platter, and I will be serving it to you all on a follow up piece platter, with all the trimmings. You might want to get a good bottle of wine to go with it. The real holocaust deniers have exposed themselves...Jim W. Dean

On December 14, 2012, Dr. Eran Elhaik turned almost two generations of Jewish genome research upside down.

But he went even further. The young Israeli-American geneticist has charged former researchers with academic fraud, and he has the research to back it up. How could those those eminent Jewish scientist before him have been so wrong? Easy says Dr. Elhaik, "First these researchers decided what conclusions they wanted to find, and then they set off to find evidence to support it." I was not bashing Jewish scientists. What Elhaik has described is a slam dunk fraud.

But why? Why would Jews who take such pride in the academic achievement risk exposing themselves to a group deception which was bound to be discovered later? Dr. Elhaik does not delve into the quicksand of the politics, but I will gladly do so.

They perpetrated the fraud solely to support the bogus biblical claim to Palestine which was anchored in their being a separate people. This distinguished them from all others because they claimed a land title in their blood.

They bet the farm on this DNA proof of purchase, a God given bar coded passport to the Palestine. Dr. Elhaik just erased the bar code. It was just stamped on anyway, because it was never in the blood.

Why, why did they do it? The second

half of the answer not revealed in his research was that you had a bunch of atheist, communist Jews shoot their way into taking over the Land with the sole moral cover that 'God gave it us only'.

Before I had a bookcase of Judacia in my library I must say I was a bit suspicious of these atheist Jews whipping out God's dual land title and passport. It was propaganda of course. It always was. And the story for another day is why did an entire academic community who should have known better, cower down and debase themselves in their own community by allowing the fraud to not only be birthed, but continued?

Arthur Koestler's *The Thirteen Tribe* was a major influence in cracking the fraud. It was published in the day when Zionist propagandist were very savvy in not attacking an esteemed Jewish author. They had no fear from the academic community, already neutralized, and Kostler's book did not generate a moral tipping point challenge to the Zionist false claim on the Land.

Dr. Elhaik literally nails the fraudsters to the cross, "...[they] assumed that the Jews constitute a group that is genetically isolated from other nations."...That's because Jews were never genetically isolated, making all those other studies fatally flawed and very often contradictory.

I was wondering what weapon of mass destruction that the Jewish Lobby bullies would unleash upon the young Israeli-American geneticist.

I expected to be reading about Alan Dershowitz denouncing him as a self hating Jew when actually it is Dershowitz who is the self-hating Jew. He and Abe Foxman compete for the most negative Jewish stereotype and best bully competition award annually.

But there has been no attack. The 32 year old Dr. Elhaik is getting the Arthur Koestler treatment, in spades. What do I mean? Well, his research paper was published by the Oxford University Press, in the prestigious journal *Genome Biology and Evolution*.

But do you think a bunch of savvy Zionist propagandists are going to worry about the mass public ever hearing a thing about his research? Of course not. And are these same pretend-a-Jews going to risk giving his work a 100 times more exposure by attacking him publicly?

Let's get back to Dr. Elhaik hammering the nails in, "First these researchers decided what conclusion they wanted to find, and then they set off to find evidence

to support it...It is my impression that their results were written before they began the research. First they shot the arrow – and then the painted a bull's-eye around it."

Take a moment to ponder what he said there, folks. Does that sound like someone trembling in fear of Jewish Lobby power in America, or someone thinking that his career is over and committing hara-kiri? No. That 'painted a bull's-eye around it' was not an off the cuff remark, but one he had chosen to use in a Haaretz interview.

This is a young man who is NOT standing on the shoulders of the fraudsters who have gone before him. On the contrary he wants to stand on their academic bones by exposing them, and he has.

More from his Haaretz interview, "The various groups of Jews in the world today do not share a common genetic origin. We are talking here about groups that are very heterogeneous and which are connected solely by religion...[the] genome of European Jews is a mosaic of ancient peoples and its origin is largely Khazar."

The Genome Project Spelled Doom for the Founding Myths of Israel

Now onto some of the science highlights. Dr. Elhaik's research shows that the dominant element in the genetic makeup of European Jews is Khazar. For Central European Jews it is 38%, while for East Europeans it is 30%.

To that you can add his findings that in both groups their genome is mostly Western European. Surprise, surprise.

The Roman empire is the dominant lineage there, those that settled on the frontier, like retired soldiers, and the locals with whom they produced families.

There were some Jewish merchants there as Elhaik did find some Middle Eastern roots which he suspects are Mesopotamian and a bit of biblical Israel.

But here comes the slam dunk...the Israel connection is such a tiny part of their overall genome that it cancels out their DNA title claim to the Land. The good doctor would not wander into this swamp but I will, by calling a spade a spade.

What Dr. Elhaik has discovered folks is a 'reverse holocaust', the inventing of huge numbers of pseudo-Jews who have no more a blood claim to the land of Palestine than I do, even if I converted.

What I have just stated in no way challenges a religious or cultural affiliation. But as we all know, most Jews are not religious, including in Israel where way more than

most are not. Subtracting that, then all you have is the tribe, the DNA, which unites them to a shared history of persecution. But that folks, is now all gone. Poof...gone.

Who among us does not have some genetic make up of a people who had suffered in ancient times, even numbers of different peoples, five or ten different ones? Why should we allow the pretend-a-Jews to send all of our gene pool to the back of the historical suffering bus as Club Med ancestors who enjoyed the 'all inclusive' treatment. I find that just a bit too convenient.

The Human Genome cannot be holocausted – even if Zionists wanted to.

So these 'Jews', are they then just a gang, united to be against all those not in the gang? Have they invented the whole story in a way like gang members take an oath and defend territory?

And is that not where Herzl and others before him saw an opening, that the Land could be a territory bond to unite Jews who were always fighting like cats and dogs amongst each other?

And is not the 2000 years of persecution claimed mostly by those who are not really descended from those actual people?

Who really has holocausted whom here, and why? We had Golda Meir's instant holocausting of the Palestinian people with her infamous, "There are no Palestinian people."

Is this not poetic justice from Dr. Elhiak, that he brings us scientific proof of there being no biblical Jewish people as such as they have presented themselves? And does this not also make a fraud of the historical 'Anti-Semite' smear, by a people who aren't even Semites?

I think it might be time to start setting things straight on the Founding Myths. I must admit that I never expected to get a free ticket to the truth from a smart young Israeli doctor from John Hopkins who has his moral rudder deep in the water.

He is not a gangster, whoever his ancestors were. We call this...leadership, with maybe a touch of Moses parting the Founding Myth waters for those who want to walk through to the other side.

We shall now see if others choose to be free, or to run with the gang. The militant Israelis, they always knew this day was coming. That is what their nukes have been for, always. They knew. They never believed in it themselves. They were atheists for heaven's sake.

The Criminal State of Israel and Its Role in Terrorism Updated August 25, 2013

The facts confirm that Israel and its collaborators in the U.S. are serial provocateurs and key architects of the terrorism against which Tel Aviv seeks America's military and diplomatic protection and the financial support of U.S. taxpayers... To solve this transnational criminality requires multilateral engagement to remedy the perils that this syndicate now poses to world peace... The strategy deployed to date reflects a profound misunderstanding of the game theory dynamics that deceived the U.S. to wage war in the Middle East for Greater Israel. - Jeff Gates, *Guilt by Association*, 2008

Guilt by Association (2008) explains how the Israelis apply game theory to deceive the United States into waging wars in the Middle East.

A friend and supporter recently gave me a copy of Jeff Gates' book, *Guilt by Association: How Deception and Self-Deceit Took America to War*. I was immediately struck by one of its opening paragraphs, which hits the nail squarely on the head:

Six decades ago, an enclave of Jewish elites and extremists induced Harry Truman, a Christian Zionist president, to recognize Zionism as a sovereign entity in the Middle East. Rather than operate as a loyal ally, that enclave has proven to be an enemy. The consistency of Israel's behavior since its founding in 1948 confirms how organized crime expanded to global scale behind the facade of a sovereign state.

I finished the book as the United States prepared its military forces to attack Syria, based on unproven allegations that the Syrian regime was responsible for the use of chemical weapons that killed several hundred people near Damascus during the past week. Once again, it now seems very likely that the United States will use its military to attack a Middle Eastern nation based on spurious allegations.

The following extracts from the book are well worth reading and remembering as we find ourselves on the brink of another war of aggression in the Middle East:

Only now has it become apparent that a state based on fundamentalist Judaism is neither a democracy nor a hapless victim but an apartheid state, an aggressor, and a serial agent provocateur. Israel's expansionist goals could only be achieved by way of deception.

The systemic nature of this criminality suggests that Americans alone can no longer secure their country - the corruption is too imbedded and elected officials are too intimidated by the Israel lobby. To solve this transnational criminality requires multilateral engagement to remedy the perils that this syndicate now poses to world peace...

The strategy deployed to date reflects a profound misunderstanding of the game theory dynamics that deceived the U.S. to wage war in the Middle East for Greater Israel. The global community is mistrustful of our words, extremists have been emboldened, and our allies feel less secure. It is not Iran but Israel that must be restrained to protect U.S. national security and to repair the worldwide damage done by the "Washington" consensus.

In order to grasp the role that Israel played in the false-flag terrorism of 9-11 and the illegal wars that followed in its aftermath, it is essential to understand that Israel is, in fact, a criminal state that was created and is ruled by an organization of Zionist criminals, and that it is actually an enemy of the United States - and humanity.

**Provision: "Forced" Home Inspections
Posted on August 16, 2013 by

Reprinted for educational purposes only:

"Clearly, any family may be visited by federally paid agents for almost any reason." According to an Obamacare provision millions of Americans will be targeted. The Health and Human Services' website states that your family will be targeted if you fall under the "high-risk" categories below:

*Families where mom is not yet 21.

*Families where someone is a tobacco user.

*Families where children have low student achievement, developmental delays, or disabilities.

*Families with individuals who are serving or formerly served in the armed forces, including such families that have members of the armed forces who have had multiple deployments outside the United States.

There is no reference to Medicaid being the determinant for a family to be "eligible." In 2011, the HHS announced \$224 million will be given to support evidence-based home visiting programs to 'help parents and children.'

Individuals from the state will implement these 'strategies to' enhance program sustainability."

Commentary: — "I'm glad to know, since I am a American Veteran, that I'm bundled in with young and under aged mothers, smokers, and the mentally slow disabled youth. So how did I get this motley family; oh, the government assigned them to me under Obama Care? I was once 'targeted by the North Veitnamees' in North Vietnam, now I'm 'targeted' by the Health and Human Services in the 'good ol' U.S.A. So they're going to break down my door to talk to me about health care, like if I really wanted to know! Gee, I'm 'eligible' to somehow fall into this 'high risk category' since I fought to defend my country; therefore, I qualify and will be visited by federally paid agents, i.e., the FBI, the National Forest Service, NASA, HLS, the CIA, and TSA perhaps -- makes perfect sense to me! Talk about targeting people, why don't they investigate the Obama Family since Barack was a heavy two pack a day chain smoker, and why his Mother-in-law still lives in the white house, free!

And to think, it will be all paid for by 224 million of your tax dollars -- nothing to worry about; except for, guess what: that

federally funded Dept. of Alcohol, Firearms, and Tobacco (FAT) agents who will be looking for tobacco, stills, and FIRE-ARMS, all granted by a legal law of forced (inspection) entry into your home, under the new 'Obama Care' National Health Care Act. Warrant to search, what Warrant? Better register your arsenal of illegal guns and bullets now or you will be in a heap of trouble, 'FEMA fodder' you might say! Few people know of a law that states: 'if you are a person in possession of 100 guns or 100 bullets, or the sum of either, you are defined as a Domestic Terrorist' by the government and subject to internment without a lawyer for an indefinite period of time (Homeland Security Act, passed Jan. 1st., 2013) under the auspices of Attorney General, William D. Holder, a trust worthy individual.

—This is REAL folks, I'm not making it up!—

So, I'm thinking of a 'get rich quick' scheme of manufacturing and selling Patriotic Doormats to 'eligible' families with the United States Constitution printed on them, so to give notice to these federally paid agents from slipping and falling on their ass and hurting themselves (and get a closer look at the Constitution wording, I might add) while they break family doors down in a stampede into their homes -- only later to serve the home owner with a personal injury law suit. One must protect oneself from this kind of federal scamming, don't you say? ...and it all starts with a program to 'help parents and children,' how wonderful!" ~ the American Patriot ~

It is time to stop being Israel's Bitch!

I renounced my US citizenship and the United States of Hypocrisy refused to acknowledge my right, our right, to self-determination. Alright then, I am thinking now that maybe I just needed to leave for 10 years or so and reflect on things, now that I have, I have made some important conclusions.

First among them is that it remains an embarrassment, that idiot flag waving Americans have sat by while their Constitution was used like toilet paper and their government became a bought and paid for circus of clowns.

Second is that due to this despicable state of affairs of failing to pay attention on our watch we Americans have continued to be complicit in mass murder that is truly

unparalleled in the modern age. God help us for what we are collectively responsible for.

Third, our American sons and daughters continue to be used as the meaningless pawns they are and ultimately, aside from those our sons and daughters murder in foreign lands, aside from those we rape and torture, our sons and daughters themselves are the biggest victims of all. We so pathetically spouted "support our troops", like idiots, incredible idiots, while effectively sentencing them to a fate that makes post-traumatic stress disorder almost inevitable. Look at the drug abuse, domestic violence, homelessness and suicide rates of returning soldiers and compare it to the returning soldiers of Vietnam, what the fuck are we doing to our supposedly cherished sons and daughters?

I have come to another conclusion, America is almost assuredly going down and going down hard, so hard that it might just bring the whole world down with it, for this reason more than any other I feel a need to exercise the best virtues I obtained as an American born son and do my best to sound the alarm. To reach out to every genuine, not fake ass idiot patriot, but to reach out to the genuine patriots.

And lastly, we need to acknowledge 100% that the American government is bought and paid for by the Zionist, Jewish supremacists, Israeli "dual citizens", which in truth is a pyramid with the Rothschild's and their bankster kin at the top. These are the puppet masters and they have used America as their strong arm, if we are so blindly stupid as to continue this role as their enforcers, we will exterminate not only ourselves but possibly this beautiful world we live in.

Hiroshima and Nagasaki are proof of just how horrendous we have been and thus are capable of being today.

It is time to stop being chumps, it is time to actually give some meaning to the word patriot. It is especially time for those in the police, military and government who took an oath to uphold the Constitution to honor that commitment. Are you a person of honor? Or are you a fraudster? A coward?

I couldn't care less about fake patriots, but real patriots, I am serious about working with you. Get the fuck up and take the fake ideals of America and make them real.

If that were to happen I will happily ask for my citizenship back... until such time I do not give my allegiance to this criminal entity and thus I am not a citizen regardless of the judgments of this corrupt government and its minions.

When America truly becomes a nation of honor I will be proud to stand among its citizens as a genuine member of the family.

Let us make this so.

GROW FOOD, NOT LAWNS

In 1994, I bought 5 acres on the north half of a tiny two house town 30 miles from the nearest small town. Bingham was still on the map and I bought the old post office and general store in 1994. The ranches that surrounded it filled up half a page in the Socorro, NM phone book. Carrizozo was 30 miles to the East, Socorro 30 miles west.

I started my Free American Magazine, my radio show and the Militias in New Mexico. That certainly brought a lot of heat on me after two Jewish Organizations, the Anti-Defamation League (ADL) and Southern Poverty Law Center (SPLC) publicized my involvement in and promotion of the Militia nationwide when my little local newspaper went national in full color. Their attacks and cries of Racism and Antisemitism were unfounded

and untrue. I did start the militia in New Mexico but I did it in Governor Gary Johnson's office. The Chief of the New Mexico State Police was a subscriber for ten years. Ever elected official in the Santa Fe Roundhouse got a copy of my magazine each month.

SPLC and the ADL never quit. When my name and the Free American appeared in an SPLC inspired FBI document sent to all police departments, I called both the governor and the Chief the next day and told them I thought someone was trying to arrange my death by cop. The document was recalled by the governor the next day. Attacks on my advertisers, supporters and guests continued. I spent ten years in what I considered an ideal location. Fate had put me ten miles from the Trinity Site. My neighbor said he slept through the first Atomic Blast across the street on White Sands Missile Range. My children learned to drive themselves to school. They played football and had a good childhood, growing up in a small town where everyone knew them and they were always safe.

We had a coke box out front, a library of books, film, Miracle 2 Soap and a little beef jerky. The garden was producing lettuce, corn and other produce. My sons went

to militia training on the NRA Range outside Raton, NM and out shot all the adult militia men. Because of the magazine We had a little traffic from readers and the guys that worked on White Sands. I wanted to build that traffic. At various times we had folks drop in with their campers and RVs. Some stayed and helped around the place then caught the wind.

I decided a restaurant and a motel or RV Park would be an attraction and a money maker. Rumors were spreading that the Trinity Site was about to be turned into a national park. There was plenty of traffic on US Hwy 380.

On a trip to Ruidoso, the ski resort 40 miles to the west, I found old fashioned looking cabins made by Cavco at some resorts. Just Outside Red River and Santa Fe, I found Yurts and Teepees. I decided to concentrate on a configuration of teepees surrounding a yurt. I figured anyone driving down the highway and seeing a bunch of brightly lit Teepees with a sign that said Vacancy, Organic Food and Hemp Coffee would get a steady stream of customers.

and arranged an accident that put me into a hospital for 4 months, 3 of them in a drug induced coma. I woke up to find that I had lost almost everything and the attacks continued after I got out of the hospital. The notes and columns I wrote after getting out and learning of the three quarters of a million dollar hospital bill, were written when the attacks were continuing and became one chapter of my latest book.

Excerpt from Mystery Babylon here.

The pressure from Communist propagandists continues until the present day. The loss of my businesses, my property and my family weighed heavily on my mind while I tried to continue and re grow what I had lost. Fortunately I became eligible for Social Security and had a small income I attempted restore the Free American and intended to use that to develop my property in New Mexico. Unfortunately, I was alone and damaged goods. No one I had supported in the patriot movement came forward to help.

A woman showed up offering to help. The story is long and involved and not

very pretty. The short and sweet version is I thought I had a partner. We refinanced in her name. I sold the property in Bingham to get the money to restart the Free American and Liberty Villages. The day we closed she kicked me off the property. My property went from five acres and a home to a 37 foot fifth wheel.

To this day there are factors involved that make it damn near impossible to analysis what happened and who was responsible for the string of bad luck I weathered. The term love was tossed around. The wife I was with for 24 years left me and went to work with her father. She still tells me I am the love of her life. Guess she is just waiting for her father to die. He told her he would disown her if she came back to me after the accident.

Self doubt crept in. Was I just a bad man, a poor husband and father, a danger to our republic for reporting on the creep of Communism or was I being a purposefully attacked and demonized by the same people that attacked and demonized Sen. Joe McCarthy? Were the people that at-

tacked or abandoned me foreign agents or well meaning people just dumbed down by our public fool system? The war on drugs was a psychological warfare on the American people. The “hippies” were attacked and demonized for using marijuana but we started a peace movement that got us out of an illegal and immoral war. Just the beginning of the wars we have been in ever since.

For years I have tried to analyze what was happening to us and prepare or counter what I believe to be coming.. It has happened many times in history. What if the Communists who invaded Russia and murdered 60 million white Christian Russians had taken over many aspects and departments inside our government? Why were these murderers in the Soviet Union given atomic weapon and our citizens victimized by a media produced “Cold War”? Who won that War? The bankers who financed and profited from all wars!

ALL WARS ARE BANKERS WARS.

Liberty Village began as a concept for building a sustainable, self-supporting communities in rural areas of this country. It was a good plan, with a specified number of structures to be raised a specified number of miles from the nearest town. These were good ideas that could have worked in a different economy or with more time to make it all happen.

Well, the world changed in the blink of an eye. Now, money for investing in experimental communities, building structures, buying land has all dried up. Our country is reeling from bank failures, home foreclosures, staggering unemployment and governmental ineptitude. The house of cards collapsed, folks, there is no going back. My companies and my property was lost along with a million other Americans who lost their homes.

In the subsequent contemplation Liberty Villages exist. There may not be a physical location in a rural area, there may not be a group of people living on some land off the grid, but Liberty Village is still here, in a different form.

Liberty Village is not a place, not a collection of buildings located on a piece of land somewhere. Liberty Village exists everywhere and nowhere, it is a concept, a new paradigm, a way of surviving the global-level social and economic changes we are currently experiencing.

Liberty Village is an online community with information, ideas, research and encouragement. We are reinventing our soci-

ety right now, and Liberty Village will be with you, bringing ideas, plans and ways to connect with others as we create a new society on top of the ashes of the old one.

If you own a house you can barely afford to keep and you open that home up to share it with someone who can help you with the mortgage and bills, you are part of Liberty Village. If you are contemplating replacing your lawn with a vegetable garden, you are part of Liberty Village. If you are installing a rain collection system, a solar panel or anything else that will help you conserve resources, you are living in Liberty Village. If you are a small rancher or farmer struggling to maintain your way of life and you allow others to live on your land in return for their help, you have created Liberty Village.

Liberty Village means being willing to let go of what no longer works and find new and creative ways to work with what you already have. Liberty Village means being willing to share your resources and allow others to share with you. Liberty Village is understanding we are all connected and that we all need each other to survive the current shift.

We learned a very important lesson, starting with Hurricane Katrina and continuing to the present, where we are witnessing the train wreck of our economy. While our government is scrambling around in a panic trying to figure out what to do to save bankers and large corporations from their own bad management and greedy business practices, the message being sent out loud and clear is that we the people are on our own.

So – What do we do? Do we sit in the wreckage crying over the “stuff” we have lost or do we get busy and figure out how to live with what we already have. “Stuff” will not save us, the government will not save us and the big corporations will not save us.

We have to save ourselves and each other. We have to create things that work, like barter systems, home sharing, land sharing and back yard farming.

We all have gifts, skills and resources to share or trade. Let’s get busy.

“You will comply or we will destroy you”
Using a bogus claim of “marijuana growing”, thugs from the Arlington, Texas police department under the direction of the mayor’s office raided and trashed a small farmstead destroying food crops including 20 producing blackberry bushes and a field of sunflowers and carted away essential farm equipment.

Did they find any evidence of marijuana growing?

No they did not!

But they did find “code violations” and while conducting the search and destroy raid, police kept eight adults in handcuffs, one reportedly for several hours.

This illustrates why we need an organization to protect the urban or country farmers. This is why we need to work together, organize and prepare under the banner of FREE AMERICANS and converting our towns and communities into Liberty Villages! CRD

It's hard to get the average person to understand. They do their jobs, pay their bills and raise their kids, never perceiving how they are being slyly guided toward their own destruction. Like slaves who think they are free, they spend their lives in pursuit of things that don't really matter, and harm their own health voluntarily. And when you try to tell them about the real problem, they look at you funny, say "You're a hater!" or "They're really public spirited citizens who get involved in everything" or "I know a really nice one who helped me a lot". When you try to tell them the real story about what's going on in the world, and why everything is so screwed up, they think you're crazy, and continue doing things that wreck their own lives. It is no accident that most of the people in the world are totally blind to . . . The Jew menace

KILLING THE WORLD, RIGHT BEFORE OUR EYES HAVE YOU EVER HEARD OF MEDICIDE?

By John Kaminski
pseudoskylax@gmail.com
<http://therebel.org/kaminski>

It simply is no longer enough to point out the crimes against humanity by the corrupt U.S. government without specifying those behind the scenes pulling the strings on all these atrocities.

Without attaching the word "Jew" to every crime and every lie the U.S. government tells its own people, most writers are actually doing the work of the Jews by covering up the Jew roots of all these destructive acts undermining the freedom and health of everyone in the world, simply by not mentioning the word "Jew" in their stories.

Investigative reports about politics or medicine or practically any other subject that don't mention the word "Jew" are essentially meaningless, because they don't address the root cause of the problems, and subsequently do nothing to solve the problem being written about. In fact, these stories are worse than meaningless. They are deliberately deceitful, because they conceal the evil force that has created all these problems in the first place, destabilizing every country in the world for the purposes of profit and control, as well as enjoying perverse pleasure from the pain they inflict on others.

The U.S. government is now an en-

tirely Jew operation. The more intelligent observers among us know that it has been throughout the 20th century. From Homeland Security to the American Federation of Teachers, from both major political parties to the cabal of kosher killers on Wall Street, they are all run by Jews.

The future of America is now certain. If you are not a Jew, or deemed suitable to be a slave of the Jews, you simply will not be allowed to survive.

Presidents and senators have long been surrounded by Jew operatives directing their paid patsies to produce profits for the paymasters and pain for the populace. In fact, more than pain. What we are seeing now is a mass murder plot the likes of which the world has never seen, a multi-front extermination program that has the enthusiastic approval of the U.S. government.

And not only is it succeeding, the vast majority of its victims are applauding it, and clamoring for more, while staunchly defending the psycho actors who are busy killing them.

While mainstream news items such as the war on Syria are totally twisting the facts to make it seem that Syria's leader is gassing his own people, numerous other eminently more credible reports have proven that the Jew-driven U.S. is paying the opposition and providing the poison weapons for the rebels to use, then blaming these gas attacks on the Syrian government and the very people they are being used against.

It's the same formula Jews in Israel use to explain why they have to kill Palestinian children, who are the victims and not the terrorists the Jewish mainstream media labels them. Now we see the same thing happening in America, where defenders of the Constitution opposing government lies used to kill innocent people are termed criminals, instead of the principled patriots they actually are.

This is the typical media fluff formula that has sabotaged the whole world. Combined with the steady dumbing down of our educations, the kosher perps get away with crimes that — because they control the courts and the cops and the legal profession — they falsely insist are legal, and laugh at our stupidity for blindly accepting these cynical betrayals.

Obama's executive order that he could kill anyone he wants to is the most egregious of these, a brazen, serial killer move that barely elicited a peep of protest from the dimwitted Americans more interested

in tractor pulls and Wet T-shirt Contests.

This is also the way that all the U.S. wars have started. Despite the overwhelming opposition of the American populace, which has never wanted any of them, the wars were staged, millions of people died, and nothing really changed as new wars continue to be manufactured.

This perversion of publicity and justice is sponsored by Israel and the Jew murderers who run the war machine, who include the Queen of England and the slimy series of thoughtless perverts in the U.S. White House. It has already been noted that Prince William, Kate and Little George, the future monarchs of England, all have have Jew blood in them. Except for the two who were assassinated, every American president since Theodore Roosevelt, except for Kennedy, has been controlled by Jews.

But the twisting of the world's political news and cramming it into everybody's TV-addled brains is NOT the most dangerous part of what can only be called the kosher destruction of humanity for profitable purposes.

Nor is the presumptive emptying of the bank accounts of everyone in the world by supremely insane Ponzi schemes such as counting derivative investments as assets and running up multi trillion dollar deficits, assuring a majority of the world's population will starve to death in the very near future . . . if the myriad other tentacles of this monstrous assault on humanity don't kill them first.

Nor is the flooding of the world with debilitating radiation that guarantees 90 percent of the world's babies birthed in its path (which is the entire planet) will be born defective if not dead, and that the living will see their lives drastically shortened by thyroid and other cancers.

Nor is the monopolization of the world's food supply by a Jew slave trading and weapons making company named Monsanto guaranteeing the debilitation and death of all who consume their poisoned products, and also rendering the land itself incapable of growing healthful vegetation.

Nor is the fouling of the skies with life-choking aluminum that radically interrupts the nurturing rays of the Sun from fueling the photosynthetic processes on which the birds and the bees and every other living thing depend upon to get the nutrients they need to sustain their survival.

Nor is the introduction of homosexuality to preschoolers, who have no concept of such matters until years later. This pre-

mature ejaculation of perverted prurience into the minds of impressionable toddlers not only feeds the rape machine that is the hidden hobby at the highest levels of rich and powerful world politics, but it forever ruins the chances of all these children to raise healthy families, as marital relationships based on unnatural sex are known to not last, but devolve into infidelity and violence that casts its self-destructive shadow onto subsequent generations in tragic cycles of abuse and betrayal, thereby decaying the family structures that hold free societies together.

Nor is the fact that control of the all the world's information has fallen into the hands of the Jew Ray Kurzweil, new intelligence chief at Google, who believes that in a very short period of time, every living person will receive their information from a central source, and that source will of course be Jewish, which essentially is already the case. Kurzweil also believes that human consciousness will soon be downloaded into indestructible technological bodies that will live forever, and of course, these creations will be totally Jewish.

But no! None of these reasons are main obstacle to your continued survival.

The real problem is your own doctor

The real reason — and cause of your imminent and impending death, already working its way through your own clogged blood vessels and deteriorating cells — is your own doctor, who has signed on in spades to the Jewish murder plan by uncritically accepting what he has been taught in medical school, which has been radically revised to suppress and outlaw the most effective formulas for healthy living. Instead the vast majority of mainstream doctors divert their objectives to selfish pursuits, not to mention mass murder by injection.

Every doctor gets a bonus from the pharmaceutical companies for every pill he or she pushes. Wonder no longer why the American Medical Association, a Jew operation from its earliest tawdry beginnings, wants to ban all vitamins, supplements and practical non-pharmaceutical remedies to maintain your own health.

Or why they have nothing to say about GMOs or glyphosate, the poison in Monsanto's Roundup herbicide which has totally toxified America's food supply.

It's because they want to kill you, after first taking as much of your money as they can, and getting fabulously wealthy in the process, which is a philosophy about as Jewish as you can get.

Just think about what doctors are doing to us. They don't try to cure us; they merely replace one disease with another, which does not eliminate illness, but only replaces one malady with another for which they can charge an arm and a leg as they rot your brains and poison your body. This philosophy comes right out of the Talmud.

Think of the deliberately false cures they've profited from over time — mercury fillings guaranteed to trigger diseases; approval of fluoride in water supplies which dulls our brains into semi-consciousness; radiation and chemotherapy for cancer treatments that kill us slowly while the medical professionals drain our wallets and bankrupt the middle class; causes of cancer in Salk's famous polio vaccine which weren't discovered until decades later; their deliberate inventions of AIDS, Alzheimer's, Asperger's and autism; and most recently the demon drug known as Gardasil, now recommended for all children despite its stupendous track record of killing young girls or sterilizing them for life.

And now they're even suggesting boys should take Gardasil, which makes no sense at all, but the majority of sheeple are too comatose to notice. Yet another nominee for medical scam of the century. <<http://www.gardasil.com>>

This is prima facie evidence of the dumbing down of the American population to permit this obvious sham medicine to be inserted into millions of American girls and boys, only to see fertility destroyed and illnesses savage a very large percentage of them — even as the inventor of Gardasil has admitted it doesn't work, and only makes children sick.

Don't even get me started on other vaccines, which most people accept without thinking, and do serious long term damage to themselves.

The cholesterol hoax

Because I'm an old geezer with heart issues, my own personal pet atrocity which mainstream doctors across the board push before anything else these days is the use of statins, which depletes the body's cholesterol. The one substance the body needs to fight off disease and remain healthy has been targeted by doctors and Big Pharma to INCREASE the incidents of distress and disease, which means more money for them. They tell you that you need to keep your "bad" cholesterol as low as possible, when in fact low cholesterol makes you more susceptible to a whole raft of diseases and debilities.

This is the top priority of the medical profession — to reduce your body's defenses and make you sicker more seriously and more often. It goes without saying that that the medical profession, hospitals and the American Medical Association have long been dominated by Jews.

Dr. Natasha Campbell-McBride, a frequent contributor to Dr. Mercola's website and author of "Put Your Heart in Your Mouth," calls the myth that what you eat affects your heart "the greatest scientific deception of this century" (although there is a lot of competition for this dishonor, because that's really all the allopathic medical community ever creates — scientific deceptions to keep you dependent on their malevolent ministrations).

Now the push is on to get everybody over 50 years of age taking statins to lower their cholesterol, as the Jewish media repeat the lies created by the selective skewing of falsified test data and AMA propaganda. <<http://www.dailymail.co.uk/health/article-2145558/Why-EVERYONE-50-needs-taking-statins-Cholesterol-busting-pills-cut-risk-heart-attack-stroke.html>>

The fact is, as Dr. Campbell-McBride explains it, is that, especially in older people, lowered cholesterol levels INCREASE the risk of heart attack and stroke, rather than reduce them. "The idea that saturated fats cause heart disease is completely wrong, but the statement has been 'published' so many times that it is very difficult to convince people otherwise . . .", she writes. "Readers should be aware of the unscientific nature of claims used to support it and see it as little more than a pernicious bum steer . . ."

Dozens of authoritative quotes from established medical experts follow Campbell-McBride's own conclusion that the diet-heart hypothesis and this insane rush to lower everyone's cholesterol is nothing by an urban myth eagerly utilized by doctors focused on their own profitability.

From Dr. Edward Pinckney, author of "The Cholesterol Myths" (2000): "If you have come to believe that you can ward off death from heart disease by altering the amount of cholesterol in your blood, whether by diet or by drugs, you are following a regime that still has no basis in fact. Rather, you as a consumer have been taken in by certain commercial interests and health groups who are more interested in your money than your life."

Among Campbell-McBride's many conclusion that statins are a widespread

conspiracy aimed at fleecing the public and ruining their health. "In fact," she writes, "the majority of studies show that men, just like women, die more from heart disease if they have low cholesterol levels. And yet doctors are busy prescribing cholesterol-lowering medication to millions of men around the world."

And . . . "In Russia, low cholesterol has been shown to be associated with an increased risk of heart disease."

About the use of labels

This particular essay does not attempt to address the question of whether the portion of this anti-human, anti-life agenda practiced by the vast majority of mainstream physicians applies to all Jews, almost all Jews, some Jews, or merely a few Jews. I only know that in my experience all the Jews I've seen write or heard speak have never challenged the murderous Talmudic teachings of Judaism.

However, I would defend specific use of the word "Jew" to describe all these nasty practices as correct, as attempts by others to use the adjectives "Zionist" or "Communist" or "anarchist" or "neocon" are simply ruses used by Jews to distance themselves from the crimes of their non-spiritual brethren through the use of deceptive synonyms, thereby avoiding their own personal responsibility for this macabre spectrum of colossal crimes against humanity.

After all, the same semantic argument could (and should) be used against Americans, or Russians, or Chinese, or any nationality responsible for deceptive or criminal behavior. I therefore leave it up to the reader to decide if my characterizations are accurate, and if you want to call them Talmudists, or Illuminists, Shabbatean Frankists, or subversive Marrano maniacs, that is entirely your choice. I only know that I am not interested in using synonyms that serve as camouflage for diabolical practices that in my opinion are best categorized as falling under the rubric of the well-known term "Jew".

Writers who employ term "Zionist" when they are actually referring to insane Talmudic Jews are actually helping Jew criminals maintain their cover, and avoid responsibility for all the anti-social, hateful behavior mentioned above. If you think I'm wrong about this, be sure and let me know where I could find such a Jew, who could candidly speak about Israeli brutality and its avoidance of worldwide law codes accepted by everyone else, who could admit to the tragic hoax of the Holocaust and

continuing torture of the innocent Germans, who could candidly explain the immoral code evident in the Kol Nidre oath that has compelled them to deceive everyone in the world and ravage country after country with their conscienceless fast buck operations with absolutely no regard for the rights and needs of others.

Sad to say I don't think anyone could find a single Jew who could admit to all these travesties, but hopeful soul that I am, I still cling to the hope that possibly one or two could be turned up with a diligent worldwide search.

I repeat, it simply is no longer enough to point out the crimes against humanity by the U.S. government without specifying who behind the scenes is pulling the strings on all these atrocities.

Writers who fail to explain this distinction are actually making it easier for the Jews to destabilize and destroy societies like the U.S. by demoralizing their citizens, who then focus their wrath on the well-publicized puppets of the Jews like presidents, prime ministers and other potentates, who are only following the totalitarian orders of their Hebrew puppet masters cleverly hiding behind their paid-off bankers and politicians.

And now the next generation is being lured into these false analyses as generations before them have been deceived, leading to the endless string of World Wars that have several deformed humanity and made quadrillions of dollars in evil profits for the Jew menace.

All because people are afraid to use the word Jew in their descriptions of all these crimes that are being committed.

Today, a college degree signifies a dupe who has been properly trained in the dark art of mastering a nonessential task in order to divert their attention from the No. 1 problem of the world, and the one which threatens their lives and their families most profoundly, the Jew destabilization of reality.

What they've done to the schools and education, gradually reducing the curriculum to subjects only fit for beasts of burden, is perhaps the greatest tragedy the world have ever seen, robotizing the population.

Therefore, my heartfelt recommendation is to never trust a story that does not include the word Jew in the explanation of the crime against humanity being discussed, for that is the essence of the Judaic philosophy, to commit crimes for profit against not only against humanity, but against all life.

Those who continue to write stories without mentioning the Jewish roots of all these problems might as well put their heads between their knees and kiss their butts goodbye, because they are only helping the evil force that has intimidated them into not using their real name, which renders these cowardly writers incapable of identifying the true criminals of the world with absolute certainty.

You can oppose the Jews, or trying to make a deal with them, but the only issue up for debate will be the method of your death, prematurely. And this is where the world is now, because of your personal failure to use the word Jew when describing what has gone wrong with our rapidly deteriorating world.

How Many Zionist Jews Does it Take to Pull off a False Flag?

Like the 9/11 False Flag, which has so many Zionist Jews and turn-coat Israeli American Jews at the center and on the edges that you might think you've stumbled into a Bar Mitzvah!

Zionist Jews in all the Right Positions!

It should be noted that Jews were extremely over-represented in the Bush Administration. An ethnic minority group which comprises just 2% of the American population had 42 of its people in top positions in Bush's cabinet. This extreme over-representation of Zionist Jews illustrates the extent of their control of the American government at the time of 9/11. Absent involvement by many of the key Zionist personalities detailed here, 9/11 could not have happened.

Rabbi Dov Zakheim – Co-author of the PNAC paper on rebuilding America's defenses advocating the necessity of a Pearl Harbor-like incident to mobilize America. Served as Pentagon comptroller from May 4, 2001 to March 10, 2004. Two large sums of money disappeared from the Pentagon on his watch. In the beginning \$2.3 trillion was reported missing by Donald Rumsfeld (September 10, 2001) and later Zakheim was unable to account for another trillion. Zakheim also had flights of American F-15s and F-16s sold as surplus to Israel at a fraction of their value.

Michael Chertoff – Assistant attorney general for the criminal division of the Justice Department; later, Director of Homeland Security. His wife, Meryll Chertoff, was a regional director of the ADL. His mother was a flight attendant for El Al and thus had involvement with Mossad. His father and uncle are Rabbis.

Richard Perle – Chairman of Pentagon's Defense Policy Board. He was expelled from Sen. Henry Jackson's office in the 1970s after the NSA caught him passing highly classified documents to Israel.

Paul Wolfowitz – Was Deputy Defense Secretary and a member of the Defense Policy Board in the Pentagon.

Douglas Feith - Headed reconstruction in

Iraq. Effectively in command, with Wolfowitz, of the War Department on 9-11; Undersecretary of War for Policy. Fired from National Security Council in 1976 on suspicion of passing classified documents to Israel. "Dual Citizen" of US-Israel. Douglas Feith created the "Office of Special Plans" shortly after 9/11 which was where all of the fake intelligence accusing Iraq of developing WMD's and having ties to Al Qaida came from.

Eliot Abrams - Key National Security Council Advisor. Associated with criminal Zionist / Pro-Israel think-tanks: AEI, PNAC, CSP, and JINSA. Closely associated with other criminal Jews Perle, Feith, Wolfowitz, and Bill Kristol. Convicted of lying to congress in the Iran/Contra Affair but was later given a pardon by Bush.

Marc Grossman - Under Secretary for Political Affairs on 9-11; met with General Mahmoud Ahmad, head of Pakistan's ISI and 9-11 financier, on or shortly after 9-11; "dual citizen" of US and Israel

Ari Fleischer — White House spokesman for Bush on 9-11; Harlined Iraq WMD lies to the press; "dual citizen" of US and Israel; connected to the extremist group called the Chabad Lubavitch Hasidics

And who helped remove the WTC crime scene evidence before any investigation of the evidence could take place?

I know this might be hard to believe, but it was another Jew, Alan Ratner: Crime Scene Evidence Quickly Removed and Destroyed

Alan D. Ratner's Metals Management and the SIMS group was made responsible for quickly scooping up the WTC steel/debris and shipping it off to Asian smelters. Alan Ratner is Jewish. Ratner merged with the SIMS group and the Hugo Neu corporation and they made a handsome profit. Ratner sold over 50,000 tons of crime scene evidence steel to a Chinese company at \$120 per ton. Ratner had obtained it for \$70 per ton. He not only destroyed evidence from one of the biggest crime scenes in history, he made a vast profit doing so. Who controlled the WTC and allowed all the suspicious activities in WTC 1 & 2 to take place in the weeks before 9/11?

That's right, more Zionist Jews. Damn, this is getting repetitive.

Control of World Trade Center Complex

The first step in preparations for the 9/11 attacks was to secure control of the World Trade Center Complex itself. This was crucial because without complete control, the setting of explosive charges to bring down the towers would be next to impossible without serious risk of discovery.

Four key Zionist Network assets

Larry Silverstein - Silverstein is a Jewish American businessman from New York. Larry obtained a 99 year lease on the entire world trade center complex on 24 July, 2001. [3] The towers were in fact close to worthless, being filled with asbestos, [4] yet Silverstein "felt a compelling urge to own them". Silverstein had breakfast in "Windows on the World" restaurant (located in North Tower 107th Floor) every morning. [5] but was absent from this routine meeting on the morning of September the 11th. Silverstein's two children, who also worked in the WTC, decided to take that day off as well. Larry Silverstein was paid a little over \$4.5 Billion in insurance money as a result of the destruction of the WTC complex. [6] Silverstein was on personal friendship terms with Zionist media-magnate Rupert Murdoch, former Israeli president & infamous Zionist war criminal Ariel Sharon, as well as Israeli PM Benjamin Netanyahu. Silverstein was such good friends with Netanyahu that, according to the Israeli newspaper Haaretz he would speak with him on the phone every Sunday. [7]

Frank Lowy [8]- Lowy, a Czechoslovakia born Jew, was the owner of Westfield America, one of the biggest shopping mall conglomerates in the world. Lowy leased the shopping concourse area called the Mall at the World Trade Center, made up of approximately 427,000 square feet of retail floor space.

Frank Lowy has an interesting history. He was a member of the Golani Brigade, and fought in the Israeli war of independence. Before this he was a member of Haganah, a Jewish terrorist organization. He spends three months of the year at his home in Israel and has been described by the Sydney Morning Herald as "a self-made man with a strong interest in the Holocaust and Israeli politics." He funded and launched

the Israeli Institute for National Strategy and Policy, which will “operate within the framework of Tel Aviv University” in Israel. He is also close friends with many top Israeli officials such as Ehud Olmert, Ariel Sharon, Bibi Netanyahu, and Ehud Barak. He was implicated in an Israeli Bank Scandal with Olmert. [9] Frank Lowy was not at the WTC on 9/11.

Lewis Eisenberg - Eisenberg was the head of the Port Authority of New York and authorized the lease transfer to Silverstein and Lowy. [10] Eisenberg was a large contributor to the Bush-Cheney presidential campaign, as well as a partner in the Jewish bank Goldman-Sachs. Eisenberg has been both a member of the Planning Board of the United Jewish Appeal/United Jewish Federation pro-Israeli government pressure group in the U.S. [11]

Ronald Lauder - Billionaire Estée Lauder Cosmetics magnate. He was the chairman of NY Governor George Pataki’s commission on privatization. He is the key individual who lobbied for the privatization of the WTC [12] -- but he was also instrumental in the successful privatisation of the former Stewart Air Force Base. Oddly, the flight paths of flight 175 and flight 11 converged directly over this airport.

Who was in charge of the WTC security that allowed all those thermite charges to be brought into the ‘Twins,’ and strategically placed before 9/11?

You only get one guess.....Bingo, that’s right, more Zionist Jews.
WTC Security In Zionist Hands

The second crucial aspect of control was that of security for the WTC complex. This was required to provide unquestioned access to strategic areas of the buildings for the purposes of rigging explosives in the period prior to the attacks.

The contract to run security at the WTC was awarded to Kroll Associates after the 1993 WTC bombing. Kroll is otherwise known as “Wallstreet’s CIA”. The contract was awarded by The Port Authority of New York and \$2.5 million was paid to them to revamp security at the complex. The owners of Kroll were two Zionist Jews named Jules & Jeremy Kroll.

The managing director of Kroll at the time was Jerome M. Hauer.

Hauer was also the person chosen to run Mayor Rudy Giuliani’s office of emergency management (OEM) from 1996 to 2000. He is the key individual that pushed for this office to be placed in Silverstein’s WTC Building 7 (ie the third tall building to collapse on 9/11).

Jerome Hauer is also Jewish and a staunch Zionist. Hauer’s mother, Rose Muscatine Hauer, is the retired Dean of the Beth Israel School of Nursing and the Honorary President of the New York Chapter of Hadasah, the Daughters of Zion movement that is one of the central Zionist organizations involved in the creation and support of the State of Israel.

Who was in charge of airport ‘security’ on 9/11 that allowed all those Israeli Jews posing as Muslim hi-jackers to board the doomed jets?

If you said Zionist Jews, you win the Kewpie doll!

Airport Security In Israeli Hands

The third crucial aspect of control to be established was that of security at all of the airports from which the hijacking flights would originate. Passenger screening needed to be handled by controlled operatives so as to allow certain people and items (i.e. weapons) onto the planes.

The company that ran airport security at all three airports where the alleged hijackings originated was Huntsleigh USA a wholly owned subsidiary of ICTS International and owned by Ezra Harel and Menachem Atzmon - both Israeli Jews.

The company was run by “experts” in the security and intelligence field - Israeli intelligence that is. Most employees were ex- Shin Bet agents. It is not credible that this company, which ran security at both Boston Logan and Newark airports, was so slipshod as to allow 19 Arabs to board 4 different planes with box-cutters, mace, and even a gun.

I’m running out of space, but not traitorous Zionist Jews who stuck a knife in our backs on 9/11. To see an even larger, well-documented list of these ‘Bagel Bastards,’ go to “9/11: Israel did it.”

DETROIT FILES FOR BANKRUPTCY DESPITE MILLIONS IN HIDDEN INVESTMENT FUNDS

Wed, 14 Aug 2013 11:44:00 PDT

by Foster Gamble

Local, state and federal governments in the U.S. are in a serious financial crisis. Since 2010, thirty-six US governments have filed for bankruptcy. (See below for references.) Twenty-one states are not financially sound. Sixty-one of the largest US cities are poised to file for bankruptcy. Chicago owes \$19B in pension payments they say they don’t have. Los Angeles is more than \$30B in the hole. And it’s much the same in every major city — Philadelphia, Boston, Cincinnati, St. Paul, Jacksonville, New York, Baltimore...and more. Detroit is the largest American city to ever file for bankruptcy, and yet it’s just the next drop of rain in the gathering storm...

But what if I were to tell you it didn’t have to be this way, and that instead of filing for bankruptcy, these governments could all wipe out their debt, pay their bills, continue to employ their workers, and eventually minimize and eliminate the need for taxes? People are saying that Detroit doesn’t have the \$3.5 billion to pay its former government employees — teachers, firefighters, police and more — BUT IT DOES!!!!

How is that possible? It’s a little known fact that governments are not just using your taxes to pay for government services, they are also investing your taxes in businesses all around the world, and making millions of dollars. Like big banks, they use your hard-earned money and invest it elsewhere to accrue interest over the years. Although the evidence for these funds is posted on the Internet annually, the mainstream media has colluded for forty some years to keep this quiet.

All municipalities, including Detroit, have two sets of accounting books — one is the public operating budget that you and I hear about, and the other is this investment fund. The key to paying workers and supporting our communities is in the second set of private books...there are literally trillions of dollars available in these government investment funds that were set up for “rainy days” and could be used to balance government budgets, and even have a surplus.

These reports can be discovered in what are called CAFR’s — Comprehensive An-

nual Financial Reports — that reveal the existence of trillions of hidden dollars across the United States. You can learn more about CAFR's in my previous blog.

CAFR's reveal that not only is there money available, but there is big money available in nearly every major city. For example, the small city of Stockton, California had at least \$208 million in liquid investments when it filed for bankruptcy and in 2012 the "failing" state of California had \$755 billion in its "rainy day" CAFR fund.

CAFR's also reveal an accounting trick that governments and banks use to hide money from taxpayers: they confuse the labeling of "assets" and "liabilities". This allows them to hide money they do have and imply that they don't have enough. As Clint Richardson says:

"The fact is that 99% of the entire structure of municipalities across the nation could be out of debt tomorrow and still have money and investments to spare (be in the black) if it weren't for the fact that governments enjoy, promote, and profit from the interest (usury) created by debt."

Here's an example of this type of deceptive accounting from Detroit: on page 41 of Detroit's CAFR it lays out the scam in its "Statement of Net Assets". The gist is that the City declares over \$10.6 billion in "liabilities", which it then "balances" against about \$10.3 billion in "assets". The trick used has to do with timeframe for the accounting. The government counts in the present all the money they will owe on contracts and pensions, so instead of amortizing the liability over the many years that they have to pay it, they instead count it all as due right now. Not only does this mean the government does not get to include any offsetting revenue that could be used to defray those costs, like fees and taxes collected in that timeframe, it also forces a negative balance by lumping all liabilities as due in the present when this is simply not the case. It would be like you adding the total cost of your mortgage in your yearly expense column.

In Detroit, this results in a "balance" that gets shown to the people as a negative \$300 million dollars. But \$9.1 billion of that is not due until sometime in the future — at the rate of about \$300–400 million per

year. So the \$10.3 billion in assets that are real right now for Detroit could be used to rectify the situation and take care of human beings rather than be squirreled away for the politicians and bankers.

As Richardson puts it:

"...government is forcing itself to pay future liabilities today — which just happens to have the good-for-government and bad-for-the-people side effect of creating the unnecessary illusion that bankruptcy is needed. And so government is now the largest defaulting entity in history. And the people blindly support what they don't understand, allowing that fraudulent government machine to place the responsibility for its actions upon the backs of those people in the form of sheer usurious debt, while laughing all the way to the bank."
.....

"Government is not in the business of helping people. It is a financial mega-corporation with branches in every square mile of the United States with investments in the entire world economy."

There is no evidence that this will stop until we stop them. There's talk of Obama now bailing out Detroit...with more of your tax money! And then what happens with the other cities? If Washington bails out the cities, who is going to bail out Washington? Can you hear the rattling of more debt chains coming — for you and your children's children?

People talk about government "incompetence" in this type of situation, and "fiscal irresponsibility." This is not ignorance or incompetence. This is blatant fraud.

So what can we do? Walter Burien has been working on exposing the CAFR scam for the last 20 years, and has worked out a brilliant solution with the following steps:

Publicize the truth of the money available. Put the money to work for the people who funded it — that's you!

Use the millions and billions in the government's true asset funds as an endowment for the community.

Replace taxation with this investment fund as the source from which to meet community needs.

Burien calls this approach the "TRF" — Tax Retirement Funds — because that is just what they do: phase out and terminate

the need for taxes.

Does all of this sound impossible? For a glimpse at a similar scam — a tip of the iceberg, check out the California state parks department getting caught just last year with \$54 million squirreled away while claiming they needed to close parks.

Please help spread the word, demand truth from your representatives and press your local papers or radio and TV channels to cover this.

You can access state CAFR reports here. We also encourage you to sign up in our Solutions Hub — simply click on "Find a Group" to search for others in your area who may be interested in working with you on CAFRs. If there aren't any people listed in your area, consider registering a new group and make sure to list "CAFR" as your group focus. We will be updating the Solutions Hub to be more effective in the coming year — for now it can be a useful resource to connect with others.

Let's take this tragedy and use it to inform how to take our power back!

Taxpayers Strike it Rich? by Foster Gamble

How Genetically Engineered Foods Will Be Eradicated

By Dr. Mercola

We're in really exciting times with regards to shifting the tide against genetically engineered (GE) foods and genetically modified organisms (GMOs).

As you know, I was a big supporter of the California GMO labeling campaign, and while we lost the vote by an incredibly narrow margin last November, Proposition 37 catalyzed an enormous amount of awareness across the US.

More people are now aware of GMO's than we could possibly have ever reached through educational efforts alone, investing the same amount of money that we invested in Prop. 37. It really marked the beginning of the end for GM foods in the US.

Jeffrey Smith, who is one of the leaders in educating people about the concerns and dangers of GMOs, has been at it for about 17 years. He believes we are now at the most critical stage in the history of GMO activism in the United States.

"We've now hit new stages of what I call the tipping point of consumer rejection," he says. "And it follows very logically from Prop 37. Let me explain what I mean by a tipping point, and then I'll explain exactly where we are in that process."

In January 1999, the biotech industry boldly predicted that within five years 95 percent of all commercial seeds in the world would be genetically modified and patented.

They did not anticipate the gag order of a scientist being lifted three weeks later in Europe. A firestorm of media reported on his results of a GMO-feeding study. Over 700 articles were written within a single month in the UK.

In 10 weeks, the tipping point of consumer rejection was achieved in Europe – heralded not by the European Commission banning GMOs, but by Unilever banning GMOs, then Nestlé, and then virtually everyone in Europe because they realized that using GM ingredients had become a marketing liability. This is what we call a tipping point."

US Now Reaching the Tipping Point

In the US, we saw a tipping point against Monsanto's genetically engineered bovine growth hormone (rBGH) when it got kicked out of Walmart, Starbucks, Yoplait, and Dannon.

This was not due to any action taken by the Food and Drug Administration (FDA), but occurred when mothers across the nation became aware of the cancer risks associated with milk from cows treated with bovine growth hormone.

Now, the tipping point of consumer rejection of genetically engineered foods in the US is almost here.

A clear sign of this occurred last year, when the president of Whole Foods confessed that when a product becomes verified as Non-GMO or GMO-free, sales leap by 15-30 percent. Of all the categories of health and wellness claims, such as "gluten-free," etc, "GMO-free" products have the most rapid growth in sales.

"This shows an enormous desire and demand for non-GMO products," Smith says. "There are now 10,000 products in our NonGMOShoppingGuide.com database that are verified as non-GMO, and that's expanding every day."

"It's actually happening in a big way. The next stage of the tipping point was heralded by a New York Times article¹ on the 27th of May. If you were to read it from the perspective of a food product manager, you would realize the absolute need to make a decision.

I call it the stage of "awake and scramble," where they wake to the fact that the GMO movement is in place. It's not going away. And if they want to participate, they got to scramble for non-GMO ingredients now because they may not be able to get it later."

Signs of the Times

The article touched on a number of vital signs of progress in the movement against genetically engineered foods, including:

The March Against Monsanto in 52 countries by more than two million people. Labeling laws proposed in more than two dozen states, which subsequently passed in Connecticut and Maine. Washington State will probably pass a GMO labeling bill as well this fall.

Hundreds of companies have enrolled in the Non-GMO Project, and some non-GMO companies fret they may lose their sources of non-GMO ingredients to the new-comers.

Farmers now receive more non-GMO premiums.

Some companies are already going overseas to get non-GMO ingredients. Besides that, Target has announced that its own brand will be non-GMO in 2014. Ben

& Jerry's will be non-GMO by the end of this year, and while Chipotle's restaurants are working toward a non-GMO menu, they voluntarily started labeling in the meantime. There's also been more news coverage on the dangers of GMOs. According to Smith:

"The next stage of the tipping point is coming up very soon. It is called the battle for market share."

The Battle for Market Share—Ready, Set...

The battle for market share begins the moment a mainstream food company that is not just sold in Whole Foods or a natural food chain puts a "Non-GMO Project Verified" sticker on its package and places it on the shelf next to a popular GMO-containing counterpart.

"This could happen at any time. It's expected as early as August. Once it happens, the stopwatch starts ticking," Smith says. "If we can move the sales in the direction of the Non-GMO Project Verified product and the other one starts reducing market share, it becomes the sell signal for the entire industry. If there's a delay, if there's no change in there, then the tipping point may stall and companies may use that as an excuse to say, "Well, maybe this will go away or be firewalled into the natural food space."

The Institute for Responsible Technology began a massive campaign this summer to drive the non-health conscious shopper – the Walmart and Safeway shopper – into the non-GMO product category by focusing on the following four categories:

Mothers. Moms may sometimes not switch their own diet for themselves but they're dedicated when it comes to protecting their children, and there's ample evidence showing that children are most at-risk from GE foods. An impressive 1.7 million people watched Jeffrey Smith's film "Genetic Roulette" during free-showing weeks in 2012, and many of them were parents, who immediately acted on the information and saw the results for themselves. Says Smith:

"I was speaking at MIT recently and someone from the audience said, "We saw the film. Before that, my six-and-a-half-year old was violent and out of control. They wanted to take him out of school and actually label him retarded. After changing his diet, a month later, I had a new child. All of those problems went away." We're getting that information out to the moms."

The sick, and their doctors. Mounting

research has linked GE foods to a number of diseases and disorders. Studies are also implicating two of the main toxins related to GE foods, Roundup and Bt toxin, to all sorts of diseases.

"I go around the country and ask audiences, 'How many of you have significantly removed GMOs from your diet? And then I say, 'Okay, tell us all what improvements you've noticed.' We hear: allergies; headaches; fatigue; gastrointestinal disorders; kidney- and liver problems; diabetes; high blood pressure; skin problems; aggression; depression; infertility.

Someone said, 'My client couldn't get pregnant for five years, switched to a non-GMO diet, and was pregnant three weeks later. Another woman said, 'My four-year-old started talking.' We hear from parents of autistic kids—even from an autistic person directly—who told me when they switched to a non-GMO diet, the symptoms alleviated. An autistic man in his 60's came up to me and said, 'I would never be able to come to this meeting with you had I not changed my diet, because these symptoms were preventing me from this type of social interaction... A lot of people also lose weight when they get rid of GMOs. It's another main feature that we have to highlight, which we haven't done a good job at.'

Religious groups. The Institute is also talking to people of various religious faiths, whose scriptures tell them to respect the natural way of things.

"They realize when they look inside this technology of mixing and matching across kingdoms and species and forcing DNA into new species that have never been there before, that it is against their faith. And then when they see the evidence showing that it's actually causing health problems, it confirms what they believe. Many of them are getting onboard to direct their congregations to avoid GMOs."

Pet owners. Many pet owners will tell you, their animals are just as much part of the family as any child is. And, as with children, animals are also among the most at-risk.

"We are finding—based on the experiences of veterinarians and pet-owners—that animals that eat the byproducts of the human food supply are suffering from the same diseases and disorders that humans are suffering from. We have veterinarians saying that animals and livestock—pets and horses—are all suffering from eating GMOs and improve when they get rid of

GMOs," Smith says.

Vote Non-GMO with Every Purchase

The feedback Smith describes offers strong testimony to the fact that even though it may have looked like we lost the battle when Prop. 37 failed to pass, we really won the war because it triggered this process of rapidly mounting awareness. And with awareness, people are quickly shifting their purchasing habits.

The rapid and dramatic rise in sales of products that are Non-GMO Verified really demonstrates the power you have as a consumer. And this is how we will ultimately win, because most food companies don't have a particular pro-GMO agenda. They're just selling what people will buy, and by using the most inexpensive ingredients possible they can increase profits. But if their profits go down due to an undesirable ingredient, they will change it.

So, to keep the momentum going, I urge you to purchase Non-GMO Project Verified foods, and to tell your friends and relatives to do the same. Explain to them why, and point them toward resources if they're skeptical, or they're concerned that this is all some over-emotional response that has no basis in science.

"We know that the information that we're presenting at the Institute for Responsible Technology2 has been tested to verify change in people's diet very quickly," Smith says. "I recommend getting involved in our materials—our free newsletter at ResponsibleTechnology.org, for example—and sharing that information with others."

Results from Animal-Feeding Studies Correlate with Human Disease Patterns

According to Smith, there are definitive correlations between the results from animal-feeding studies and the patterns of human disease we're now seeing. For example, the American Academy of Environmental Medicine has done a number of animal-feeding studies on GMO's and specifically enumerated the particular categories of diseases and disorders found in these controlled environments:

Gastrointestinal problems Immune problems Reproductive problems
Organ damage Dysfunction and dysregulation of cholesterol Dysfunction and dysregulation of insulin

"You look at the three different corresponding factors: (1) what humans are getting better from, (2) what livestock is

getting better from, (3) what afflictions are afflicting the lab animals fed with GMOs, and then you look at what diseases are really taking off in the United States—they're the same categories," Smith says.

For example, kidney problems have been demonstrated in 19 different animal-feeding studies, and kidney diseases are on the rise in the US. Could there be a connection? Smith and I both believe this to be the case. According to Smith:

"We heard from two people at a meeting in Arizona, someone whose husband was nearly on dialysis and someone else who had three kidney transplants—both situations reversed when they changed their diet.

You see things like the animal-feeding study out of Russia where the babies were a lot smaller after being fed GE soy, and you see the incidence of low-birth-weight babies is going up in the United States... Deaths from senile dementia moved along at a certain pace, and then when GMOs or Roundup were introduced, it shot up... So, you see these correlations between these four things now: (1) the animal-feeding studies, (2) people getting better [when removing GMO], (3) livestock getting better [when removing GMO], and (4) changes in the disease rates."

Glyphosate Toxicity—

Another Hidden Danger of GE Foods

There's also another potent toxin associated with genetically engineered foods that is unrelated to the Bt toxin or the genetic alteration itself, and that is glyphosate—the active ingredient in Monsanto's broad-spectrum herbicide, which is used on both GE crops and many conventional crops as well. The contamination appears to be greater in GE crops however, especially in so-called Roundup Ready crops. These are genetically altered to withstand otherwise lethal doses of the herbicide, and it's important to realize that the glyphosate permeates the entire plant. It cannot be washed off.

In June, groundbreaking research was published detailing a newfound mechanism of harm for Roundup. The finding suggests that glyphosate may actually be the most important factor in the development of a wide variety of chronic diseases, specifically because your gut bacteria are a key component of glyphosate's mechanism of harm.

Monsanto has steadfastly claimed that Roundup is harmless to animals and hu-

mans because the mechanism of action it uses (which allows it to kill weeds), called the shikimate pathway, is absent in all animals. However, the shikimate pathway IS present in bacteria, and that's the key to understanding how it causes such widespread systemic harm in both humans and animals. The bacteria in your body outnumber your cells by 10 to 1. For every cell in your body, you have 10 microbes of various kinds, and all of them have the shikimate pathway, so they will all respond to the presence of glyphosate!

Glyphosate causes extreme disruption of the microbe's function and lifecycle. What's worse, glyphosate preferentially affects beneficial bacteria, allowing pathogens to overgrow and take over. At that point, your body also has to contend with the toxins produced by the pathogens. Once the chronic inflammation sets in, you're well on your way toward chronic and potentially debilitating disease... As stated by Smith:

"Roundup is actually patented as a biocide. It's an antibiotic, it kills bacteria. That affects not only the soil, killing the beneficial bacteria that provide the nutrients to the soil, but it also kills the beneficial bacteria in your gut... It kills the Bifidus. It kills the Lactobacillus. But it keeps alive the E.coli, salmonella, and botulism, which is not something we want to keep alive. When you kill the beneficial gut bacteria, it affects your immune system and digestive tract."

This remarkable finding was immediately followed by tests showing that people in 18 countries across Europe have glyphosate in their bodies³, while yet another study revealed that the chemical has estrogenic properties and drive breast cancer proliferation in the parts-per-trillion range⁴. This finding might help explain why rats fed Monsanto's maize developed massive breast tumors in the first-ever lifetime feeding study published last year.

Other recently published studies demonstrate glyphosate's toxicity to cell lines, aquatic life, food animals, and humans. In fact, research⁵ has shown that Roundup is toxic to human DNA even when diluted to concentrations 450-fold lower than used in agricultural applications. Liver-, embryonic- and placental cell lines are adversely affected by glyphosate at doses as low as 1 ppm. GMO corn can contain as much as 13 ppm of glyphosate, and Americans eat an average of 193 lbs of GMO foods annually⁶.

The Road Ahead...

here's every reason to be optimistic when it comes to getting GMOs out of our food supply. First of all, realize that we don't have to affect policy change in order to take GMOs out; we can do it based on personal empowerment and individual decision making. To find out which brands and products have been Non-GMO Project Verified, see NonGMOShoppingGuide.com, or use the iPhone application ShopNoGMO – both are free. Another alternative with which you cannot go wrong is to buy organic whole foods, ditching processed fare altogether. But there's more good news:

"We're seeing now that it's a movement that has its own life," Smith says. "[At a recent event] someone said to me, 'My dad saw the film Genetic Roulette, took GMOs out of his diet, sent us all a copy of the thing, and bought land so that he can produce food.'"

What's happening now is that there is a self-organizing and spontaneous uprising of people who have been maybe prescribed a non-GMO diet by the thousands of doctors who are doing so, or been inspired to remove it by watching our film or your materials, etc. This is a movement. The food industry now recognizes it. Those who are in a position to move quickly will take the most advantage of it. They'll see an increase in sales in the US as happened in Europe and Australia in the early days when their tipping point happened.

Right now, in the 17 years that I've been working on this, when I was first alerted to the health dangers of GMOs by a genetic engineer, I have never seen a more potent window of opportunity. We know that we can't ask the Obama administration for a bow out. We can't wait for the FDA to become awake. We have to do it ourselves. The key is we are already doing it ourselves. There's a momentum. Non-GMO products are growing faster than anything else right now in terms of categories, and the momentum is on our side.

The big test will be very shortly when we look inside the aisles of Safeway, Walmart, and Kroger – not the Whole Foods – to see if our message is moving the needle to win the battle for market share. If it does, every GMO-laden product, every product manager will realize it. It'll become the industry sell signal. They will scramble to get their non-GMO products available quickly, and we will win."

Join Us in Your Right to Know by Get-

ting GMOs Labeled!

While California Prop. 37 failed to pass last November by a very narrow margin, the fight for GMO labeling is far from over. In the past few weeks, Connecticut and Maine have passed GMO-labeling bills, and 20 other states have pending legislation to label genetically engineered foods. So, now is the time to put the pedal to the metal and get labeling across the country—something 64 other countries already have.

I hope you will join us in this effort.

The field-of-play has now moved to the state of Washington, where the people's initiative 522, "The People's Right to Know Genetically Engineered Food Act," will require food sold in retail outlets to be labeled if it contains genetically engineered ingredients. Please help us win this key GMO labeling battle and continue to build momentum for GMO labeling in other states by making a donation to the Organic Consumers Association (OCA).

ECO-REVOLUTION! 40 tons of GMO Crops TORCHED in America

Though the controlled corporate media apparatus is suppressing the story, 40 tons of GMO crops were torched, prompting an FBI investigation. There has been a COMPLETE MEDIA BLACKOUT, outside of local circles has dared to mention it, perhaps because government fears that if the public learns that other people are getting fighting mad (literally), they might join in, and become an actual revolution.

It was only reported locally live on KXL Radio Portland and echoed by the Oregonian, where the only official web mention exists, hard to find because the headline wording is carefully avoids the most likely keywords for a search.

Here's what happened

40 Tons of GMO Sugar Beets were set ablaze in Oregon in June. FORTY TONS — the entire acreage of two full fields of crops in the ground were set ablaze over a three-night period of time. That means arson.

Since the initial reports, the news said instead that 6,500 plants were destroyed BY HAND, ONE PLANT AT A TIME.

That would indicate that A LOT OF PEOPLE were involved. If the reports of the uprooting of this many plants are true, then WE ARE TALKING ABOUT A MOVEMENT, a kind of ORGANIZED REVOLT — and this is exactly the kind of retribution that many have warned was coming; when lawmakers and corporations refuse to honor the Constitution and instead engage in 'legalized' criminal acts such as enabled by the 'Monsanto Protection Act.' If, however, the initial reports of uprooting along with arson are true, then this certainly makes more sense, both in terms of the nature of the direct action, and the logic behind how it could be pulled off on a practical level. This would also explain why the FBI is involved, as uprooting plants would not likely interest the Bureau as much as this case is.

More than decade ago, environmental saboteurs vandalized experimental crops across the country in a revolt against high-tech agriculture. Foes of genetic engineering also struck in 2000, when members of the Earth Liberation Front(ELF), with roots in Oregon, set fire to agriculture offices at Michigan State University. ELF's position

was that genetic engineering was "one of the many threats to the natural world as we know it."

But ELF cells normally come forward immediately to claim responsibility, because to them, it's all about publicity to educate the public. Since there has been no statement about the recent arson this may have simply been Oregon Farmers who have said, 'Enough!' Another clue that may be the case is that this comes on the heels (two weeks) of Japan's rejection of the entire Oregon Wheat crop for the year (a tremendous financial blow because over 80% of Oregon Wheat is exported) because ONE report said ONE field was contaminated with at least one GMO plant.

The rightful fear is, because of pollination processes, once you introduce a GMO crop of a given variety anywhere, the wind and insects will spread its genetic contamination to NON-GMO fields, and thereby ruin the entire industry for a region. In fact, Oregon farmers have tendered a multi-billion dollar class action law suite against Monsanto, joining a long list of states doing so. Monsanto has experimented with GMO crops before they were approved in 16 states. They were supposedly all destroyed, but state after state is finding out the hard way, that Pandora's box has been deliberately left open. But while other governments in Europe and elsewhere are passing laws to ban GMO crops, and burning entire crops themselves, in America, our government is passing laws protecting Monsanto from legal repercussions, and therefore, it seems, farmers are forced to burn the crops, themselves. This means that where in other countries, citizens are being protected from corporate crimes, in America, citizens are forced to become 'terrorists' to survive. That's how blatantly corrupt our corporate police state has become, I'm afraid. Politicalblindspot.com

US Contractors Cited for Syrian Chemical Attacks (video)

Last week there were demonstrations and rallies against another war in at least 48 U.S. cities. On Monday, September 9, as Congress goes back into session, join Syrian American Forum and many others in front of the White House, then marching to the U.S. Congress. Go to [iacenter.org](#) to find an action near you! President Obama has called for a vote in Congress to authorize an attack on Syria. Congress is scheduled to return on Monday, Sept 9.

President Obama is using the same tactics as President Bush did before the Iraq War. When the UN Security Council would not support the U.S. war, Bush turned to the U.S. Congress for a war vote giving him "all necessary means". Ten years later Iraq lay in ruins. A million Iraqis died, millions became refugees. More than 1.5 million US soldiers were deployed to Iraq. Today thousands of U.S. and NATO soldiers are disabled, traumatized and

1/3 will suffer from PTSD.

Just as in Iraq, Afghanistan and earlier in Vietnam this is again a U.S. war based on lies. Bombing Syria is NOT a 'humanitarian intervention'. It is another war for Wall Street Profit! This time there is a risk of global confrontation or even world war.

This war will only serve the billionaires and militarists who profit from war and conquest. The workers and poor will pay, in Syria and here in the U.S.

Raytheon stocks and profits are soaring. Our cities are crumbling! We need funds for job programs, healthcare and education, NOT billions wasted on war and destruction. The cost of wars in Iraq and Afghanistan exceeds \$4 trillion dollars.

*The reaction of the overwhelming majority of people is, "We don't want this war!" But we have to join together to mobilize this majority and show the world we are ready to fight to stop this war. Let's join together with one powerful message: Hands Off Syria! Not Another War! Issued by: International Action Center

THEY KEEP USING YESTERDAY'S LIES TO TRIGGER TOMORROW'S DISASTERS

It's like Americans have no memory, no minds to remember the lies they've been told throughout their lives. So now they're hearing them again, for the hundredth time, and thinking, "Hmm, where have I heard that story before? It sounds vaguely familiar."

But as in all those times before, they still don't know what to do about them. Even after all the cynical repetitions, Americans still don't know what to do about the lies they are told and the orders they are given to kill other people, faraway people they don't even know, all for reasons that they know are lies, but they kill them anyway.

"That leader in a faraway country is killing his own people," they say, "so we have to go and rescue them."

By bombing them! Sound familiar?

For those of us old enough to remember comes the vague memory of the Vietnam corollary. "We had to destroy the village in order to save it."

No, almost no one remembers that one, even though it has been recycled and used dozens of times since that long ago meaningless war. Each time that lie is used, people say, "That sounds vaguely familiar. Where have I heard that before?" But then they turn away to attend to their more important business.

But it's even worse this time, even though it's just another variation on the same well worn theme, the same vaguely familiar lie.

You'd think the guys who have run this country into the ground could come up with some new excuses by now, some new lines to justify the next gory, unforgivable barrage of mass murder they're about to unleash on yet another innocent nation.

Let's see. They've used "weapons of mass destruction", "they're harboring terrorists", "they're killing their own people" as their excuse to obliterate innocent country after innocent country, and now, without a second thought, they're doing the exact same thing again, using exactly the same words.

How can it be that Americans are that stupid, that comatose, that gullible, that fearful about speaking out against insanity so obvious you wouldn't even try to use

it on your own family, because they'd either laugh you out of the room or have you locked up as a certifiable and serial homicidal maniac?

But no, it's the same old story, the same old tired lies. Commit a crime, then blame it on the guy we committed it against, and call that a good reason to bomb someone.

Righteous politicians spitting out blatant falsehoods pretend to be acting in the best interests of the world, but in reality, are not even acting in the best interests of the people they're supposed to be representing, supposed to be protecting, because they're too busy stealing from them, and in our present day case, too busy planning to kill them (us) with an arsenal of murder weapons, some subtle, some not.

Patrol drone snuff outs and genetically modified foods, both designed to tear your insides out and deprive you of your life.

That's how our leaders are protecting us today. Preparing to kill us and put us in FEMA camps because they've already stolen all our money, so why should they continue to feed us — we're useless eaters.

And with a hollow point bullet with our name on it in our immediate future.

We provided the poison gas for the rebels to use on innocent people we hired to destabilize the country whose resources we wanted to steal so we could blame the leader of the people who were poisoned for poisoning his own people.

An endless chorus of bobble head TV idiots all nod up and down agreeing with our fearless doped up faggot communist leader, all in unison, saying, "Yup, we should bomb them, just to teach them a lesson and prove that we are righteous, what we say is just and true, and everyone know we are the good guys." (Except all those dead people, but they can't talk anymore.)

"Yup, we have to bomb them, Just like we did to all those other countries. See all the good it did." That's what our politicians say. But that's not what the people say.

That has never been what the people have said. But what the people say has never counted. From World War I up to the present day, the people have never wanted any of these wars, but their voices have never counted. That small cohort of beasts who own the media, manipulate the money and buy their compliant politicians have trumpeted in their headlines "We need to go to war", and shouted on their talk shows "these people are evil terrorists who need to be stopped", so we should bomb them to show the world that we are right about

everything and they are wrong!"

After all, "they hate our freedoms!"

These insane drecks like Obama and Kerry and all those useless Jewish and Jew-bought commentators, all saying the same thing:

"What would the world think of us if we didn't prevent this dictator we don't like from using poison gas on his own citizens?" This, after furnishing the rebels the poison gas to use on the people we are now blaming for using the poison gas.

Sound familiar? Sound like Qaddafi, who created a paradise for his own people in Libya, only to be accused of murdering these same people, only to be raped and murdered in his own streets by the United States of Liars?

Sound like Saddam Hussein, who created a decent country for his people to live in, only to be hung for his so-called crimes by the American invaders, who killed two million Iraqis to atone for the 400 or so he was accused of killing?

It's the same story, not even a single new wrinkle, which the Americans blare out at the world, posing as the great moral policeman of the world, correcting the wrongs of tinhorn dictators that their Israeli masters tell them must be corrected.

How many countries is it now? Egypt, in a permanent state of violent destabilization. Yemen, under perpetual siege by U.S. drones. Iraq, twisting in the wind as mercenaries and paid off sectarians stage random bombings that prevent normal life. Afghanistan, where children seem to be the main targets of U.S. drone strikes. "Hey, they'll grow up to be terrorists," we're told. Pakistan, another Muslim nation in a permanent state of destabilization.

All of Africa being pillaged and poisoned for their natural resources. And America, deliberately being turned into an environmental killing field, people being killed from both the inside and out, all because they refuse to remember that they've heard all these lines before.

The only Islamic states with any degree of calm are the stooge nations loyal to the U.S.-Israeli war machine: Qatar, the rich sheikdom paying the freight for the criminals it has recruited to destabilize Syria; the Saudis, who are virtual Israelis posing as Arabs, and Israel itself, the architect of this murderous madness, intimidating all its neighbors with bribery, blackmail and murder — the time-tested Jewish political formula — and wielding the greatest military force in world history — the conscience-

This whole tragic charade in Syria is the playing out of the Israelis long-term strategy, to keep all their neighbors in a perpetual state of distress and disarray, bleeding as much as possible. It is also the Jews' long-term strategy, to turn every country in the world into ravaged landfills that look like Palestine, where people have no say about their future because the big boys plan on exterminating all of them, so they can play with themselves in a poisoned park of their own perversions.

Lying about everything. Poisoning their own citizens. And making war on the world.

Does that sound vaguely familiar to you? Have you heard that story before?

There is a simple way out of this, but don't expect the moldering corpse of what used to be the USA to implement it. Instead of nuking Syria and all those other innocent countries, we need to nuke Israel, once and for all, and throw every Jew out of every country in which they falsely pretend to be citizens, because all Jews are first and foremost citizens of the worldwide murder machine known as Israel, and citizens of no other countries in this world. Just ask a Jew; he'll tell you.

Think that suggestion is too precipitous? Well, think again. Jews have already nuked the whole world, in case you haven't noticed.

“Hey, where have I heard that story before?
It sounds vaguely familiar.”

This book will take you on a spiritual journey of an ordinary man who comes face to face with a conspiracy so vast and so evil that he was suddenly faced with making decisions that could and did overturn an heretofore orderly, happy life with a wife and family into attacks that continue to this day. Only recently has he been able to marshal the support and strength to continue. This book contains the story of a trip to Sturgis to promote Clay's first Motorcycle magazine, "Rider's Xchange". A Vietnam Vet handed him a document that now forms one chapter in this book detailing George Bush's "Operation Watchtower" commanded by Col. Edward P. Cutolo.

Clay did a comprehensive study of this document, found and contact Cpl. William Tyree through his mother. Tyree was doing life in Walpole prison. His wife was murdered and he was framed for this.

Clay ran this story in his magazine and that was the first time he was threatened by the CIA.

But that is one chapter. Toss in the history of the Rothschilds, the formation of FEMA and DHS with the startling explanations of the nature and identity of the true Israelites whom God gave this garden planet to.

What if Jesus was absolutely accurate when he said, "I know thy works, and tribulation, and poverty, (but thou art rich) and I know the blasphemy of them which say they are Jews, and are not, but are the synagogue of Satan. Fear none of those things which thou shalt suffer . . . be thou faithful unto death, and I will give thee a crown of life. . . . Behold, I will make them of the synagogue of Satan, which say they are Jews, and are not, but do lie; behold, I will make them to come and worship before thy feet, and to know that I have loved thee. Revelation 2:9-10, 3:9. Woe unto you, scribes and Pharisees, hypocrites! for ye are like unto whited sepulchres, which indeed appear beautiful outward, but are within full of dead men's bones, and of all uncleanness. Even so ye also outwardly appear righteous unto men, but within ye are full of hypocrisy and iniquity. Woe unto you, scribes and Pharisees, hypocrites! because ye build the tombs of the prophets, and garnish the sepulchres of the righteous, And say, If we had been in the days of our fathers, we would not have been partakers with them in the blood of the prophets. Wherefore ye be witnesses unto yourselves, that ye are the children of them which killed the prophets. Fill ye up then the measure of your fathers. Ye serpents, ye generation of vipers, how can ye escape the damnation of hell? Matthew 23:27-33

The Powers That Be are deliberately introducing a series of events causing History Repeating Its-Self [the less educated don't know the difference]

By V.K. Durham, CEO

Pastor. I am so glad you responded to this "Biblical doom of Damascus 'right before our eyes' article.

As you are probably aware; I have been on a front row seat on these events having been a victim who's husband was also murdered by those wanting to go to war with Syria at this time. Its not at all what the public is being told, Jim. It's about the money stolen by the money changers, the ones Jesus had his problems with. These problems which exist today are no different than those Jesus himself confronted when he threw the money changers out of the Temple. They call themselves Banking Cartels today as the privateers have created the illusion of a U.S. DEBT. see: <http://www.cato.org/bubs/pas/pa-304.html>

THE UNITED NATIONS DEBT

Who Owes Whom?

by Cliff Kincaid

Cliff Kincaid is a journalist who writes frequently on UN affairs. He is president of America's Survival, Inc., and director of the American Sovereignty Action Project.

Executive Summary

Claims that the United States owes the United Nations more than \$1 billion are false. No legal debt exists or can exist. The UN Charter does not empower the organization to compel payment from any member state.

Even the notion that the United States owes money in the sense of a moral obligation is fallacious. It ignores the military and other assistance that the Clinton administration has provided the UN and for which the United States has not been properly credited or reimbursed. Over the past five years, that assistance has amounted to at least \$11 billion, and perhaps as much as \$15 billion. The administration has been diverting funds from federal agencies, especially the Department of Defense, to the United Nations.

Allegations of debt have distracted

attention from a disturbing administration policy of providing resources, personnel, and equipment to the UN without the advance approval of Congress. In effect, the administration and the UN have been conducting important elements of U.S. foreign and military policy and bypassing Congress's power of the purse. That tendency raises grave constitutional concerns.

Because of the work of Rep. Roscoe Bartlett (R-Md.) on the debt issue, Congress is now aware of the situation and has an opportunity to reassert its constitutional authority. Bartlett has authored legislation to prevent payment of any alleged debt to the United Nations until all U.S. assistance to that organization is factored into the financial relationship. That approach would help restore the constitutional balance between the executive and legislative branches and put the United Nations on notice that it does not have an automatic claim on resources of the U.S. Treasury.

Jim. Let us explore the reason for these troubles confronting the world and I quote yesterday's article to wit;

With U.S. warships looming offshore, reports of chemical weapons and saber-rattling from Iran about the coming of Armageddon, the nation of Syria and its capital, Damascus, are at the epicenter of what some suggest may become a prophesied battle of biblical proportions.

"Many students of the Word of God see a major alignment of ancient prophecies regarding the end times being fulfilled right before our eyes," asserts Carl Gallups, pastor, radio host and author of "The Magic Man in the Sky: Effectively Defending the Christian Faith." "More importantly, we are the first generation in history to see such dramatic and striking alignments." Gallups points to the biblical passage of Psalm 83 – which tells of the nations surrounding Israel conspiring against it – and especially to Isaiah 17, which tells of a day when Damascus, often cited as the oldest continuously inhabited city in the world, will be utterly destroyed.

"Behold, Damascus is taken away from being a city, and it shall be a ruinous heap," states the ancient prophet Isaiah. "The fortress also shall cease from Ephraim, and the kingdom from Damascus, and the remnant of Syria: they shall be as the glory of the children of Israel, saith the LORD of hosts."

"I also want to note," adds author of "The 9/11 Prophecy," James F. Fitzger-

ald, "that the prophecy of the destruction of Damascus in Isaiah 17 is directly connected in its context to the fall of Ephraim and the Northern Kingdom of Israel as Isaiah previously warned in chapter 9:10. That is the same prophecy messianic rabbi Jonathan Cahn has written about in 'The Harbinger' and in 'The Isaiah 9:10 Judgment' documentary, where he's applied the specific pattern of judgment there to the remarkable events that have transpired here in America after 9/11." 1300'S THE GLOBAL CRASH OF THE BANKING SYSTEMS

One must know history to know the cycles. Let us go to Battle of Kosovo - Wikipedia, the free encyclopedia

http://en.wikipedia.org/wiki/Battle_of_Kosovo - 130k - Cached - Similar pages

The Battle of Kosovo, also known as the Battle of Kosovo Field or the Battle of Blackbird's Field (Serbian: Косовска битка, Бој на Косову; Kosovska bitka; Boj na

The battle of Kosovo Polje (Plain of Blackbirds) was fought between the Ottoman forces led by Sultan Murad and an allied army led by the Serbian Prince Lazar on 28 June 1389. This article gives an overview of the battle with photographs of the battlefield today courtesy of Peter Verduyn.

There are few reliable contemporary records of the battle and this has been compounded by the religious and nationalistic significance the battle has been given by the Serbs. The battle has been eulogised in ballad and verse over the centuries, commemorated as St Vitus' Day and this goes some way to explain the political significance of the area today.

Ironically the decisive battle of the Ottoman invasion occurred some years earlier on the banks of the River Maritsa on 26 September 1371. The Serbian army was heavily defeated and many nobles accepted Ottoman vassalage. According to Ottoman historians these included Prince Lazar making the 1389 campaign, to Ottoman eyes, one of justified retribution. read more http://www.balkanhistory.com/kosovo_1389.htm

What is Jihad: The Arabic word Jihad is derived from the root word Jahada (struggle). Jihad has come to mean an offensive

war to be waged by Muslims against all non-Muslims to convert them to Islam on the pain of death. Jihad is enjoined on all Muslims by the Quran.

This site brings you the history of the Islamic Jihad from a neutral and factual viewpoint.

Outlook of this website:

This site is against all forms of fanaticism - religious and non-religious. But the emotional appeal of non-religious fanaticism like Nazism, Fascism or Communism is not as pervasive as that of fanaticism based on religion. When fanaticism and religion are mixed, we have a very potent and dangerous brew that can sustain itself for centuries unlike non-religious fanaticisms like Nazism and Communism which die out when the ringleaders are defeated. This is so, since religion is based on the psychological weakness of all humans, when we humans try to comprehend the unknown (universe). This understanding is (and perhaps will always remain) incomplete.

Religion tries to complete this incompleteness by fantasizing that the unknown is a god and that this god is the creator of all things that happen in this world and the universe. This idea that there is a god, which is assumed to be the unknown power in the universe makes the human mind paranoid because of our fear of the unknown. And this paranoia drives humans to do anything to propitiate this unknown power that is assumed to exist. This is what transforms this weakness of our human mind into a sickness. It is this sickness of the mind that drives humans to undertake wild acts like suicide bombings, fight holy wars, forced conversion, slaughter of humans who give a different name to this assumed power called god, etc, under the delusion of trying to please the unknown power that is assumed to be behind all existence.

While all forms of religious fanaticism are negative, only Islam raises slaughter of all Kafirs (non-Muslims) to a holy creed, it teaches Muslims to gloat over the killing of non-Muslims and celebrate their death. Hence Islam is the most demented and dangerous form of religious fanaticism. And it is not Islamic fanaticism that is to be blamed for this, as Islam itself is fanaticism.

From its root to its fruit Islam is the most violent, and virulent form of this delusion

that the unknown universe is a god and all those who do not accept this brand of fantasizing of the unknown universe have to be slaughtered. This is so since Islamic fanaticism was born in a barren and harsh desert environment that gave birth to the paranoid mentality of the Bedouin Arabs among whom was born Mohammed (y-mach shmo ve-zichro - may his name and memory be obliterated), the founder of this blood-thirsty creed - Islam.

This blood-thirsty Muslim mentality has trickled down to the newest convert to Islam be he or she Brown Black, Yellow or White. Most importantly it makes Islam the worst enemy of quest and science and of all human progress. While all religions are opposed to science as the Pope was to Galileo and Copernicus; but it is Islam which is the most blood-thirsty expression of this challenge of religion to reason. So Islam will have to be the first to be removed from the path of human progress and the reply to Islam to be effective would have to be more blood-thirsty and paranoid than Islam itself.

Those opposed to Islam will have to be like the hunter who aims his rifle between the eyes of the man-eater tiger and shoots till the tiger is dead meat.

This site is dedicated to a factual and realistic analysis of the Islamic Jihad

Here you will read about the history of the Islamic Jihad from its beginnings at Mecca in 620 C.E. up to 9/11, and the lessons it has for us in today's challenging times. If we are to understand Islam, we need to understand the temperament of its founder Mohammed PBUH*, the way victorious Muslims have treated the subject people, and above all the reasons for the victory of Islam. read more <http://www.historyofjihad.org/serbia.html>

Earth's alpha predator: Zionist Mafia

by Rand Clifford

Actions trump lies. Evidence does not lie . . . so how has the American public been so brainwashed by lies, in light of so much evidence? Are Zionists that intelligent, or is the American public that unintelligent—and how did even that obvious question become a “third-rail issue”?

Totally uncool, our tradition of being outsmarted by Zionists even to the point of “Rothschilding” our descendants’ future.

Is it possible for the American public to think their way out of Zionist enslavement . . . or is Gaza a preview of our future?

There certainly is genius behind creation of the terms, “conspiracy theory,” and, “anti-Semitism.” Mere concepts, these two seem among the highest human inventions in terms of neutralizing independent thought. Both terms are amazingly popular and effective; a function, perhaps, of both being technically meaningless—a reliable

Zionist mind-control touch, confusion.

- “conspiracy theory” was born to describe anything that questions official, establishment positions. Problem is, in the realm of establishment positioning, by definition, everything is conspiracy, putting the term conspiracy theory in the same league as “wet water”

- “anti-Semitism” refers to Semites, “A member of any of a number of peoples including Akkadians, Phoenicians, Hebrews, and Arabs” (Merriam-Webster). “Anti-Zionist” is a meaningful substitute for anti-Semitic—but watch that “third rail”

9/11 was trademark Zionist false-flag testing of what they might get away with, a pushing of boundaries that, magically, stayed in bounds. Zionists third-rail magicians still brag about 9/11.

Merriam-Webster defines “third rail” as:

1: a metal rail through which electric current is led to the motors of an electric vehicle (as a subway car); 2: a controversial issue usually avoided by politicians

Touching that third rail supplying power to trains means electrocution. Politically, third-rail issues are just as not-to-be-touched; same thing socially . . . regarding “politically-correct” conversation, third rail issues beg for the spouting of “conspiracy theory” or “anti-Semitism,” often both.

Sweet success, utter hubris

Israeli Prime Minister Netanyahu’s ear-

ly reaction to 9/11 success was: “It’s very good!”—that was before he corralled his hubris, adjusted his face, and said, “Well, it’s not actually good, but it will generate immediate sympathy for Israel.”

Zionist complicity in, if not masterminding of 9/11 . . . if you wonder about that, check out this celebration of “Purim.” Don’t miss this year’s winners in the amateur costume parade—twins dressed up as the Twin Towers being blasted by “airliners”—bitchin’ smoke, flame and chutzpah. [1]

Israeli Prime Minister Ariel Sharon said to Israeli foreign minister Shimon Peres on October 3, 2001 (twenty-two days after 9/11 success): “We, the Jewish people, control America, and the Americans know it.” [2]

Two problems with Sharon’s hubris: historically, above all the Jewish people are crucial Zionist tools; little evidence suggests that the American public has any idea who is in control, or how far politicos they vote for are removed from actual power. Still, Sharon actually told some truth.

Senator J. William Fulbright, Chair of Senate Foreign Relations Committee said on CBS’ Face the Nation, October 7, 1973: “The Israelis control the policy in the Congress and the Senate.” [3]

Senator Fulbright’s candor got him unseated by a candidate laundered in by the American Israeli Political Action Committee (AIPAC—currently veiled as the American Israeli Public Affairs Committee). AIPAC defeated a senator courageous enough tell the truth—a US senator, not a Zionist drone. We used to have a handful of our own senators.

While money taught Fulbright a lesson, with Zionist domination of American mainstream media (ZMM), America’s public brain has been washed, spun. . . .

J. William Fulbright

Standard Zionist chutzpah regarding ZMM orbits the idea, “We tell Americans what to think. If we change our minds, we’ll change their minds.” Dr. Kevin Barrett

Dr. Kevin Barrett wrote recently, relating to Zionists: “We own the media, Hollywood, the banking system, Congress, and the White House. If we said the Fishy-Smelling Underwater Kingdom of Atlantis was a legitimate state, and a giant squid was its prime minister, we could make you believe us.” [4]

Blaming the Jewish people for Zionism seems similar to blaming Americans for being under Zionist control. Zionists have proven over centuries that Jews are, in the name of greater Zionism, expendable. Zionist sacrifice of Jews, with perceptions managed Zionistically, offers stellar opportunities for concoction of history in Zionist favor. [5].

Americans resist thinking for themselves—at least publicly, wary of being pecked by the flock for being “different” (chickens excel at that). Regarding Americans courageous enough for intelligent inquiry and analysis into evidence bleeding under the wall of ZMM . . . you are being watched as the Internet is being Zionized.

Wikipedia is now recognized by Zionist Israel as “. . . THE major source of information in the world.” It’s even advertised with standard Zionist chutzpah that Wikipedia is “. . . under constant, paid review of Zionist assets.” [6]

By way of deception thou shalt do war

In addition to being the motto for Mossad (Israel’s “CIA”), “By Way Of Deception Thou Shalt Do War” expresses their style of committing false-flag atrocities and

blaming them on scapegoats, enemies they want the US to destroy. The Israeli attack on the USS Liberty, June 8, 1967, is a vivid display of Zionist style.

It was the fourth day of Israel’s Six-Day War of expansionist aggression against Egypt, Syria and Lebanon. A long-planned war to invade and annex Jerusalem, the West Bank, the Golan Heights and the Sinai Peninsula.

A calm and clear June morning in the Eastern Mediterranean, where the USS Liberty patrolled international waters fourteen miles from the coast of Egypt’s Sinai Peninsula. Liberty was the world’s most sophisticated intelligence ship, a \$40,000,000 signals intelligence platform (SIGNIT) with a crew of 294.

About 6 am local time, an Israeli reconnaissance plane spotted the USS Liberty just outside of Israeli coastal radar.

Israeli planes flew out and repeatedly circled the ship on eight different sequences over the next eight hours . . . and then—Unmarked fighter jets attacked the Liberty at 2 pm, initially targeting the command bridge, communications antennas, and four .50 caliber machine guns placed to repel boarders.

After the first wave spent their ordinance, consecutive new waves of fighters added napalm to the rocket and 30 mm cannon fire. Liberty was able to contact The Sixth Fleet in the Mediterranean about nine minutes into the attack. The aircraft carrier USS Saratoga launched fighters to aid the Liberty . . . but before making visual contact, the fighters were ordered to return to the Saratoga. Fighters were also launched by the USS America, and were also ordered—again by the White House—to stand down!

Did LBJ Cover for Israel?

Never before or since in US history have planes been launched to aid an American ship being attacked, and ordered back before reaching fellow service-members under fire. On June 8, 1967, it happened twice.

Any refusal to help fellow service-members under attack is a criminal matter.

President Lyndon Johnson was noted as saying: “I don’t give a damn if every man

drowns and the ship sinks. I don’t want to embarrass our allies.”

Forty minutes into the attack, fighter jets disengaged and three unmarked torpedo boats closed in. Five torpedoes were launched—one blasting the Liberty’s research spaces, killing another twenty-five crew. Torpedo boats then raked the Liberty port and starboard with cannon and machine-gun fire, targeting anyone who came above decks, firefighters and their equipment especially.

The Liberty was ablaze and listing when her seriously-wounded captain, Commander William McGonagle, gave the order to abandon ship.

Torpedo boats machine-gunned Liberty’s crowded lifeboats, sinking two before Israelis realized that news of their treachery had gotten out of control. The torpedo boats suddenly broke off their attack and started radioing the Liberty—“Do you need assistance?”

An Israeli naval officer notified the US Naval attaché at the embassy in Tel Aviv that Israeli forces had mistakenly attacked an American ship: “We’re sorry. . .”

Israel’s attack on the USS Liberty is an American monument to shame forty-seven years old. Even Zionist-fantasy screenplays cannot sink the evidence. President Johnson and Secretary of Defense Robert McNamara may have had no problem sacrificing the USS Liberty and her crew to the cause of greater Zionism, but virtually everyone else high in the US command chain considered Israel’s “mistaken identity” claims to be pure lies.

Johnson ordered that all inquiry into the matter conclude: mistaken identity. And the Liberty sacrifice remains the only serious naval episode never to be investigated by Congress. The only one—even though evidence is explicit that, with full knowledge and intent of targeting an American ship, Israel attacked the USS Liberty with unmarked (camouflaged) planes and boats, fourteen miles off the coast of Egypt. Exactly what happened has never really been an issue; it’s all about how much the US will allow Zionists to get away with.

Liberty’s damage included 861 holes the size of a man’s hand and larger, thousands of .50 caliber machine gun holes, the torpedo wound, fire damage. . . . But, instead of sending the Liberty and all of its gathered intelligence to the bottom, along with 294 Americans, Zionists had to settle for only 34 dead crewmen, 171 wounded, and a nightmare of evidence and witness-

NETANYAHU BEFORE CONGRESS!

es.

Israel clings to the fantasy of mistaking the Liberty for the Egyptian El Quiser, a rusted-out old horse transport. Some immediate problems with that were:

- lead pilot of the first wave of Israeli fighters argued with headquarters about the Liberty flying three American flags. Ordered to ignore the flags and attack, the pilot refused—so did another pilot; both flew back to headquarters as the attack commenced, both were arrested after landing, and jailed for years

- radio arguments between Israeli command and the disobeying pilots were heard by radio monitors at the US embassy in Lebanon. Israeli commanders ordering pilots to attack an American ship—and the pilots' refusals—were also picked up by radio operators in Germany, Spain . . . many places

- Richard S. Sturman, a surviving USS Liberty radioman, said: "Two Israeli pilots, commencing their strafing-run, reported to their headquarters that the USS LIBERTY was an American ship. They were ordered to attack nonetheless! Those two pilots, refusing to attack, returned to their base, were arrested, court marshaled and given harsh jail sentences."

In 2001, it was revealed that a US Navy EC-121 surveillance aircraft with top intelligence-gathering sophistication electronically recorded from high altitude the entire attack on the Liberty. Such immaculate evidence didn't seem to matter.

And Israel did chip in \$6 million, apparently the market price for 34 Americans killed, 171 wounded, plus the material damage—the \$40,000,000 SIGNIT platform called the USS Liberty was sold as scrap for \$102,666.66. Numerology . . . mark of the beast, anyone?

The home front

Congress is pathetic. Recent polls reflect 11% of American adults believing Congress to be a good reflection of the views of the American people. Basically, a 90% disapproval rating for Congress. People might be waking up.

Another poll revealed a 10% favorable view of America's "political media"—another 90% disapproval.

Polls showing a mere 29% of American consumers of ZMM trusting Zionist perception management called "news" might also sound encouraging, unless one considers that 99% of Americans polled think Iran is a threat to the vital interests of the United States. Iran is "our" enemy, despite Americans knowing almost nothing about Iran, and Iranians—it's all ZMM propaganda. Ever seen the movie, "Argo"? [7]

So how was a population with 29% trust of ZMM essentially 100% programmed by what they don't trust into believing lies about something they know virtually nothing about? [8] Perhaps the same way Americans have been programmed to accept the "Federal Reserve System" for 100 years, even renewal of its charter for another 100 years.

Before 9/11 birthed the "Global War on Terror" (GWOT) to aim American blood and treasure at Israel's enemies, 189 of Earth's 196 recognized "sovereign" nations had a Rothschild-controlled central bank. Afghanistan, Libya, Sudan, Iran, Cuba, Iraq, and North Korea were those last seven nations resisting Rothschild enslavement.

Now, only Cuba, North Korea, and Iran remain free. Notice how high Iran and North Korea are on our list of enemies?

Please see "The Incredible Debt Spider" for more information regarding the fed, and Rothschild-controlled central banking.

Debt, forever

IMF-Worlds-Predatory-Lender!

Debt that can never be paid off, only grow. Power of creating money from nothing and loaning it to nations at compounding interest . . . the “magic” of Rothschild-controlled central banking. America’s infection is called the “Federal Reserve System,” a private, for-profit corporation independent of the federal government. The Fed has no reserves, is simply a system for transferring wealth from the people to the elite via national debt, GWOT, “benign global hegemony” (Partnership for the New American Century), bank bailouts . . . whatever it takes for, as George Bush I stated, “The continuous consolidation of wealth and power into higher, tighter, and righter hands.” [10]

The whole Rothschild Usury Mill (RUM) offers only one destiny or conclusion, only one horizon: Rothschilds will own the entire planet. They are already closer to global ownership than few people other than the elite might imagine. The US has a potentially-fatal RUM infection. On the horizon we see imminence of bank “bail-ins.” Austerity, raiding of personal bank accounts, pension funds, “entitlements”—whatever “low-hanging fruit” might keep the RUM scam-of-all-time going a little longer.

Are there any flashes of hope on the Rothschild-controlled horizon? Yes.

The Real Enemy

KNOW THY ENEMY

How’s this for a textbook Zionist mind-control twist? Our “best friend” that has given us more ever-accelerating grief and extracted from us more blood and treasure than all of our “enemies” combined has as a number-one enemy called Iran. Zionists are willing to spill every last drop of American blood, divert every American social expenditure to fund war crimes, and exhaust American treasure not already plundered by the GWOT, TARP, the Fed—all those classic symptoms of runaway RUM infection . . . building up to their ultimate usury coup de grâce, WWII.

But . . . After years of saber rattling, and employing perception-management devices all the way to Hollywood’s Academy Awards to convince Americans that the one nation that might actually save us from Zionism is enemy number-one, Zionists are yet to attack Iran. What’s in the way?

Apparently, something Zionists cannot Zionize. Treachery, duplicity, blackmail, bribery, extortion, fraud, terrorism, car bombs, pitting Israel’s enemies against each other—nothing in the obscene Zionist toolkit offers any succor. Are Zionists potentially at the mercy of their obvious, ultimate nemesis, humanity?

More specifically, are Zionists being thwarted by human invention for the good of humanity? Tesla kinds of power?

J.P. Morgan and his Rothschild masters did a masterful job of scrubbing Tesla from public consciousness. [11] But now, is “another Tesla” threatening the Zionist grip on humanity—a genius from Iran no less? His name is Mehran Tavakoli Keshe. [12]

Mehran_Tavakoli_Keshe

Mehran Tavakoli Keshe is an Iranian nuclear scientist. The longer Iran goes without being attacked militarily, the more likely it seems that, through the genius of Keshe and other brilliant minds, Iran is developing technology to render all modes of modern warfare obsolete. Could there be a greater gift to humanity than immunity against Zionist aggression—or a more obvious reason for Iran to be Zionist enemy number one?

Could Keshe be the most important person on Earth to protect from Mossad?

Humanity free of Zionism . . . try to imagine the horizon, the potential for positive growth and decency—the sheer humanity of disarming the elite. Imagine the elite global war/genocide machine dead in its tracks.

If we have any chance of outsmarting Zionism, one of our greatest allies might be mass awareness of Zionism itself. Not ZMM propaganda, but truth. Then again, after being vaccinated by ZMM for so long, might Americans be immune to truth?
